Minutes of the 2021 Ordinary General Assembly Meeting (continued)

H.E Sh. Khalid Bin Mustahail Al Mashani, the Chairman of the meeting, welcomed the shareholders and thanked them for attending the meeting. He also welcomed the representatives of the Central Bank of Bahrain, the Ministry of Industry, Commerce & Tourism, KPMG, and the Registrars.

1 To approve the minutes of the previous Annual Ordinary General Assembly Meeting held on 19th March 2020:

H.E Sh. Khalid Bin Mustahail Al Mashani presented the previous minutes of the meeting to the shareholders for their comments and approval.

Mr. Ali Al Tariff, a shareholder, appreciated the efforts of the Board of Directors and the Executive Management in achieving positive results for the Bklank, and seconded the minutes of the previous meeting, which were professionally written in compliance with Article 208 of the Companies Law.

The minutes were approved with no remarks or amendments.

Resolution No. (1): The minutes of the previous Ordinary General Assembly Meeting held on 19th March 2020 were ratified.

2 To discuss and approve the Board of Directors' report on the Bank's activities for the year ended 31 December 2020.

H.E Sh. Khalid Bin Mustahail Al Mashani - the Chairman presented the Board of Directors' Report highlighting the most significant aspects of the Bank's activities in 2020 and the respective results achieved by the Bank despite market challenges. He also briefed the shareholders on the Bank's future plans and requested any potential input from the shareholders on the Board of Directors' Report.

Commenting on the report, Mr. Ali Al Tariff, provided a number of remarks which are summarized as follows:

According to Article No. 3.35 of the Bahrain Stock Exchange's "Manual of Listing Procedures" released in January 2020, the percentage of shares to be listed in secondary markets must not exceed 30% of total shares, so what is the group's commitment to this percentage, particularly because the group's shares are listed on the Dubai Financial Market? How does this article impact the group's plan to list its shares in other markets?

The Executive Management clarified that a one-year proposal has been submitted to the Bahrain Bourse for their assessment on the legal feasibility of enforcing the requirement. The Bahrain Bourse agreed to postpone the implementation for a year. In respect of Environmental, Social and Corporate Governance standards (ESG), the Executive Management stated that the Bank is in the process of responding to the respective consultation paper from the Central Bank.

On the group's future prospects and strategy for the year 2021, the Chairman of the Board of Directors outlined the Bank's plan for 2021, by focusing on the core banking activities and increasing the Bank's market share, in addition to acquisitions and mergers, that are subject to available opportunities. If a good opportunity for investment and expansion by acquisition or merger is identified, the Bank may pursue such opportunities after conducting the requisite studies and approvals.

There were no remarks on the Board of Directors' report.

Resolution No. (2): The Ordinary General Assembly unanimously approved the Board of Directors' report on the Bank's activities for the financial year ended 31 December 2020.

3 To receive the Shari'a Supervisory Board's report for the year ended 31 December 2020.

Dr. Osama Bahar, member of Fatwa and Shari'a Supervisory Board of the Bank, presented and read the report of the Fatwa and Shari'a Supervisory Board, and emphasized that the compliance to the rules and principles of the Shari'a in respect of all the businesses and transactions of the Bank is the responsibility of the Bank's Management. The Shari'a Supervisory Board would like to confirm that the transactions executed by the Bank during the year, to the extent of the information and data made available to it by the Bank's Management, as well

as the observations of the Board and the response of the Bank's Management for compliance with observations, do not conflict, in general, with the rules and principles of Shari'a. The Shari'a Supervisory Board also reviewed the internal and external Shari'a audit reports and took note on the respective observations, along with the Management's action plan.

Resolution No. (3): The Ordinary General Assembly unanimously approved the report of the Fatwa and Shari'a Supervisory Board of the Bank for the year ended 31 December 2020.

4 To receive the external auditor's report for the year ended 31 December 2020.

Mr. Jamal Fakhro, on behalf of KPMG, the external auditor, presented and read the external auditors' report, in which he mentioned that the consolidated financial statements represent true and fair view of the group's financial position as at 31 December 2020 and that the consolidated results of operations, the consolidated changes in equity and the consolidated cash flows for the year ended are in accordance with the Financial Accounting Standards issued by the Accounting and Auditing Organization for Islamic Financial Institutions and the Shari'a rules and principles set forth by the Shari'a Supervisory Board of the Bank.

There were no other remarks on the report.

Resolution No. (4): The Ordinary General Assembly unanimously approved the report of the external auditors on the financial statements for the year ended 31 December 2020.

5 To discuss and approve the financial statements for the year ended 31 December 2020.

Mr. Yousif Ebrahim, CFO presented the financial statements for the year ended 31 December 2020 which outlined the Bank's achievements and steady growth in all of its core activities, along with the positive performance, despite the challenging circumstances. However, due to the required COVID-19 additional provisions, the bank's net profit dropped to BD 9.1 million.

The CFO also added that due to the adjustment losses (equivalent to BD 24.8 million) on financial assets resulting from: payment deferrals provided to COVID-19 impacted financing customers where no profits were charged during such period in order to comply with the CBB's directives and concessionary measures to mitigate the impact of COVID-19; , and the acquisition of non-controlling shares (equivalent to BD 16.6 million) from the senior lenders after converting their debts to a new class of shares in ASB Biodiesel - Hong Kong project in order to maintain and safeguard the assets and ensure continuity of the business until the completion of the exit process, the owners' equity declined significantly, especially the retained earnings component, which required transfer of reserves (statutory reserve and share premium reserve) in order to offset the said losses within the retained earnings. The Chairman then requested the shareholders if they had any comments.

In response to the shareholder's inquiries, Mr. Ali Al-Tarif, the CFO replied as follows: -

- the cost-to-income ratio (operating efficiency) has decreased from 56% to 52% in 2020, and the management is aiming for a lower ratio of around 36%, going forward.
- The ratio of non-performing financing - NPLs (risk cost) decreased from 5.6% to 5.1% in 2020, which is a level that is slightly above the Central Bank of Bahrain's criteria of 4%, but the management is working to improve to a ratio of less than 2.5%, going forward.
- Despite the reduction in the liquidity coverage ratio from 230% to 126% in 2020, which is still higher than the Central Bank of Bahrain threshold, the Bank is working to improve this ratio to 150 % or higher, going forward.
- The net stable funding ration decreased from 105% to 99% in 2020, which is higher than the Central Bank of Bahrain's current threshold, but the Bank is working to increase this ratio to 110% or higher, going forward.
- The CFO explained that, as part of the Bank's overall strategy, the average return on equity has been taken into account to be enhanced, as its in process of divesting its un-generated income portfolio.

Minutes of the 2021 Ordinary General Assembly Meeting (continued)

With regards to the financing portfolio details, the CFO mentioned that disclosing the portfolio details in this manner could have a negative impact on the Bank's ability to compete among Banks. Further, the current disclosures are in line with the related accounting standards.

- The external auditor clarified that the classification of net impairment charge in the financial statements is correct as it contains both impairments on financing assets and finance lease assets.

Mr. Mohamed Bader Hamid, one of the shareholders, also asked about the reason for the increase in provisions? Will there be additional provisions in the upcoming years? In turn, the CFO clarified that provisions are subject to many variables, including the quality of the financing portfolio and the surrounding economic factors. As a result, it is difficult to foresee the required provisions, but the Bank is eager to provide and record high-quality financing with proper collateral coverage. In response to a comment about the movement of retained earnings to be shown within the balance sheet, the CFO mentioned that, in accordance with the accounting standard, all movements within the equity, including reserves, were properly disclosed within the consolidated statement of changes in equity that accompanied the balance sheet. In terms of the reason for the decrease in the Sharia Supervisory Board's compensation, compared to last year, he clarified that since all of the new Sharia Supervisory Board members are from Bahrain, the expenses associated with attending meetings have decreased substantially compared to the previous one.

Shareholder, Ahmed Abdullah, raised his concern on the significant increase in provisions, and the specific ones assigned to NMC and its current status. H.E Sh. Khalid Bin Mustahail Al Mashani - the Chairman mentioned that the Bank entered into a syndicated financing transaction, led by First Energy Bank. The Bank entered into such transaction before the former Chairman joined the Bank, back in 2017, as Mr. Khalifa joined Al Salam Bank in 2018, hence, there was no conflict of interest when providing such financing to NMC. The Bank has taken a provision of 70% so far. The Mr. Rafik Nayed – the Chief Executive Officer added that the Bank entered into such financing transaction with a group of Bahraini banks, emphasizing that there was no conflict of interest in the process at the time the financing was provided, and that the Bank is following up with the company's administrative committee to assess the possibility of recovery.

In response to the participation of shareholder Mr. Mansour Al-Ajmi from Kuwait via ZOOM regarding bad debts and the NPLs ratio, in line with the Bank's future vision, H.E Sh. Khalid Bin Mustahail Al Mashani - the Chairman replied that the NPLs stood very low at 5% of the portfolio, which is within the market's reasonable range.

H.E Sh. Khalid Bin Mustahail Al Mashani - the Chairman further stated that despite of the the challenging situations, Bank was able to increase its growth rate, achieve profits, and overcome such challenges.

Mr. Rafik Nayed – the Chief Executive Officer, added that, in terms of the pandemic, the Bank is still dealing with it in a cautious manner and a clear vision in order to overcome such phase and achieve further growth and income. He said that the Bank currently has the highest solvency ratio in the market and is well positioned to deal with the pandemic.

And since there were no other observations about the report:

Resolution No. (5): The Ordinary General Assembly unanimously approved the financial statements for the year ended 31 December 2020.

6 To ratify and approve the operations and transactions carried out during the year ended 31 December 2020 with any related parties or major shareholders of the Bank as presented in the notes (no. 29) of the consolidated audited financial statements.

The CFO clarified that the Bank's dealings with its directors, management and controlled entities are conducted on an arms-length basis and at prevailing commercial terms. Accordingly, all the related party transactions were properly disclosed, especially the purchase of non-controlling stakes (equivalent to 16.6 million Bahraini dinars) in the ASB Biodiesel - Hong Kong project, in compliance with the Central Bank's requirements.

Resolution No. (6): The Ordinary General Assembly unanimously agreed to ratify and approve the operations and transactions carried out during the year ended 31 December 2020 with any related parties or major shareholders of the Bank as presented in the notes (no. 29) of the consolidated audited financial statements.

7 To approve transferring BD 914 thousand to statutory reserves, from the net profit for the year ended 31 December 2020, amounting to BD 9.1 million.

Resolution No. (7): The Ordinary General Assembly unanimously approved to transfer BD 914 thousand to statutory reserves, from the net profit for the year ended 31 December 2020, amounting to BD 9.1 million.

8 To approve transfer of BD 17 million (BD 12 million from the share premium account and BD 5 million from the statutory reserves account) to the retained earnings

Resolution No. (8): The Ordinary General Assembly unanimously approved to transfer BD 17 million (BD 12 million from the share premium account and BD 5 million from the statutory reserves account) to the retained earnings.

9 To approve the distribution of 5% stock dividends of the paid-up share capital, equating to one share for every 20 shares held (amounting to BD 11.5 million) for the financial year ended 31 December 2020.

H.E Sh. Khalid Bin Mustahail Al Mashani - the Chairman explained that the proposal was to distribute 5% in cash, but due to market conditions and in consultation with the regulatory authority, it was agreed to distribute the 5% as bonus shares in order to maintain the liquidity situation.

The Shareholder, Muhammad Bader Hamed suggested not to distribute stock dividends this year, which didn't go along with the rest of the shareholders' desire. H.E Sh. Khalid Bin Mustahail Al Mashani - the Chairman added that the proposal was to preserve the Bank's strong reputation in the market and its positive sign to the shareholders and the market in general.

Resolution No. (9): The Ordinary General Assembly unanimously approved the distribution of 5% stock dividends of the paid-up share capital, equating to one share for every 20 shares held (amounting to BD 11.5 million) for the financial year ended 31 December 2020.

10 To approve remuneration to the members of the Board of Directors amounting BD 615 thousand for the year ended 31 December 2020 subject to the relevant supervisory authority approval.

Resolution No. (10): The Ordinary General Assembly unanimously approved the remuneration to the members of the Board of Directors amounting BD 615 thousand for the year ended 31 December 2020 subject to the relevant regulatory authority approval.

Minutes of the 2021 Ordinary General Assembly Meeting (continued)

11 To approve the Bank's Corporate Governance report for the financial year ended 31 December 2020, as required by the Central Bank of Bahrain.

Mr. Eihab Ahmed - the Deputy CEO & Board Secretary presented and highlighted the Bank's compliance with the Corporate Governance and requested the shareholders to present their comments.

- The shareholder, Mr. Ali Al Tarif, requested to present the evaluation of the board of directors, the committees and the self-evaluation in the future. Mr. Ehab clarified that the CG report disclosed the summary of the assessment, but if the shareholder wishes to view specifics of the evaluation, he or she is welcomed to visit the Bank to access the required information.

In the future, the Bank will ensure to disclose all the management committee members as well as the number of meetings (weekly, monthly, or more) for all committees that are under the authority of the CEO and senior management.

- Regarding the disclosure of the external auditor's fees for auditing services and other consulting services for the fiscal year ending December 31, 2020, he invited the shareholder to visit the Bank to review the relevant details in order to preserve the bank's competitiveness. In addition, Mr. Eihab also addressed Mr. Ali's question about the representation of woman on boards of directors according to a circular released recently in the United Arab Emirates, clarifying that the circular refers to companies that do business in the Emirates rather than those listed there only.

Resolution No. (11): The Ordinary General Assembly unanimously approved the Bank's Corporate Governance report for the financial year ended 31 December 2020, as required by the Central Bank of Bahrain.

12 To absolve the members of the Board from any liability for their actions as directors during the financial year ended 31 December 2020.

The shareholders agreed on discharging the members of the Board from any liability.

Resolution No. (12): The Ordinary General Assembly unanimously agreed to absolving the members of the Board from any liability for their actions as directors during the financial year ended 31 December 2020.

13 To appoint or reappoint the Shari'a Supervisory Board for the financial year ending 31 December 2021 and authorize the Board of Directors to determine their remuneration.

The Board of Directors recommended to re-appoint the members of the Shari'a Supervisory Board for the required period for the fiscal year ending 31 December 2021 and requested the shareholders to present their comments.

Resolution No. (13): The Ordinary General Assembly unanimously agreed to re-appoint the members of the Shari'a Supervisory Board for the required period in the fiscal year ending 31 December 2021, and authorize the Board of Directors to determine their remuneration as follows:

1. Sheikh Adnan Abdulla Al Qattan
2. Sheikh Dr Fareed Yaqoob Almeftah
3. Sheikh Dr. Nizam Yaqubi
4. Sheikh Dr. Osama Bahar

14 To appoint or reappoint external auditors for the year ending 31 December 2021 and authorize the Board of Directors to determine their remuneration, subject to the approval of the Central Bank of Bahrain on this appointment.

The Board recommended that the External Auditors, KPMG is to be reappointed for the audit work for the fiscal year ended December 31, 2021 and requested the shareholders to make any comment or suggestion

Resolution No. (14): The Ordinary General Assembly unanimously agreed to re-appoint KPMG to carry out the external auditing work for the year ended 31 December 2021 and authorize the Board of Directors to determine their fees, subject to the approval of the Central Bank of Bahrain.

15 Elect Board of Directors for the Bank, comprising of 9 members for the next term of three years, subject to the approval of the Central Bank of Bahrain.

The election of the board members for the new term were concluded under the supervision of committee, composed of representatives of the registrars, the Ministry of Industry, Commerce and Tourism and a shareholder representative. Accordingly, Mr. Eihab Ahmed - the Deputy CEO & Board Secretary, the meeting's reporter read out the results of the elections, which was concurred by the share registrars and the Ministry of Industry, Commerce and Tourism.

Resolution No. (15): The Ordinary General Assembly agreed that the members of the Board shall be nine members and elected the following to the Board of Directors for the next three years period from March 2021 to March 2024 , in the following order:

1. H.E. Sheikh Khalid Bin Mustahail Al Mashani
2. Mr. Matar Mohamed Al Blooshi
3. Mr. Zayed Rashid Al Amin
4. Mr. Khalid Salim Al Halyan
5. Mr. Salim Abdullah Al Awadi
6. Mr. Alhur Mohammed Al Suwaidi
7. Mr. Tariq Abdulhafidh Al Aujaili
8. Mr. Hisham Saleh Al Saie
9. Mr. Salman Saleh Al Mahmeed

16 To discuss and approve any other matters that may arise as per Article 207 of the Commercial Companies' Law.

No new matter was discussed under this item.

At the end of the meeting, H.E Sh. Khalid Bin Mustahail Al Mashani - the Chairman` expressed his thanks and appreciation to all attendees of shareholders, representatives of the formal authorities, and the Executive Management team for their continued support to the Bank, and announced that the meeting ended.

The meeting ended at 12:00 afternoon.

Sh. Khalid Bin Mustahail Al Mashani

Chairman of the Board
Chairman of the Meeting

Counsellor Mr. Ehab Abdullatif Ahmed

Board Secretary
Meeting Rapporteur

02

To discuss and approve the Board of Directors' report on the Bank's activities for the financial year ended 31 December 2021.

Board of Directors' Report to the Shareholders

The Directors of Al Salam Bank B.S.C. "the Bank" are pleased to submit the annual report to the shareholders, accompanied by the consolidated financial statements of the Bank and its subsidiaries "the Group" for the year ended 31 December, 2021.

The global effort to combat COVID-19 continues to be the focal point of economies worldwide, which are expected to grow by 4.9% in 2022 following an expansion of 5.9% in 2021. While some challenges, such as supply-chain disruptions and higher inflation rates, are expected to continue in 2022, the global economy is forecasted to continue its overall recovery. In Bahrain, the economy is expected to grow by 3.1% in 2022 compared to 2.5% in 2021, primarily due to a rebound in the non-oil sector and further supported by the increase in oil prices. While the banking sector faced volatile challenges creating deployment difficulties as a result of the low profit rate environment, the sector continued to exhibit sustained resilience.

The short-term strategy which was swiftly devised by the Bank in the wake of the pandemic was strategically designed with defined objectives to mitigate against headwinds and steer the Bank through a period of uncertainty. This strategy was successfully achieved and yielded outstanding results. During this period, the Bank succeeded in making exceptional progress in the Bank's overall growth strategy to grow core banking activities and successfully capture additional market share. The Bank is now strongly positioned to navigate the uncertain waters that lie ahead and continue making strides in implementing its growth initiatives.

In the face of a fragile landscape that continues to be clouded with uncertainty, the Bank posted a YoY increase in net operating income of 12%, from BD 57.4 million in 2020 to BD 64.2 million in 2021. Total operating expenses saw a slight YoY increase, from BD 30 million to BD 33.9 million, in line with operational activities. Global macro-economic factors improved in 2021 compared to 2020, and the Bank capitalized on this position by adopting a prudent approach to provisioning levels, resulting in a decrease in impairment charges from BD 18.28 million in 2020 to BD 9.16 million in 2021. Ultimately, the Bank's net profit for the year increased from 9.12 million in 2020 to BD 21.22 million in 2021, reflecting an impressive YoY increase of 133%.

The Bank recorded robust growth across all verticals achieving record levels of customer deposits ending the year at BD 1.8 billion, up from BD 1.3 billion in 2020, reflecting a YoY increase of 36%. Financings also increased by 6% in 2021, reaching BD 1.36 billion, up from BD 1.28 billion in 2020. The Group's total assets increased from BD 2.3 billion in 2020 to BD 2.7 billion as of 31 December 2021, reflecting a solid growth of 19%. Furthermore, the Bank achieved a significant improvement in its non-performing financing ratio, declining from 5.1% in 2020 to a record low of 2.1% in 2021. The Bank continued to grow and diversify its fixed income portfolio closing the year at BD 640 million reflecting a robust increase of 56%. The cost-to-income ratio during the year stood at 52.7% in 2021 compared to 52.3% in 2020. Maintaining its strong capital position, the Bank ended 2021 with a Capital Adequacy Ratio (CAR) of 28.5%, significantly higher than the 12.5% mandated by the CBB.

All in all, the core banking book continued its upward trajectory driven by robust organic growth and optimization across all verticals. In line with our strategy to focus on core-banking assets, the Bank executed initiatives to exit legacy investments and reduce real estate exposure, further aiding our strong capital base and liquidity metrics. The resilience of the Bank position was further enhanced by incorporating the requisite stress testing and strategic future scenarios.

Board of Directors' Report to the Shareholders (continued)

As part of the Bank's inorganic growth aspirations, several projects were strategically launched aimed at further enhancing the Group's position and market standing. Prudent and tactical expansion of market share, growth and enhancement of earnings quality, further development of operational efficiency, fast-tracking digitalization initiatives, and strict adherence to the Bank's corporate and social responsibility measures formed the foundation of our strategy.

Moreover, in line with Bank's strategic vision to maintain its leading position and keep ahead of evolving market changes and proactively cater to a post-pandemic stakeholder base, the Bank expedited the roll out of front and back-end digitization initiatives and tackled specified focus areas, including increasing fee-based income and expanding International Trade and Transaction Banking operations. The Bank also underwent a bold, compelling, forward-thinking re-branding exercise. The Bank launched a new Brand DNA comprising of a new brand promise where reinvigorated brand values and principles were carefully formulated.

Under this new brand DNA, the Bank embraced a digitally-native mindset and launched a number of new features on its banking app, including digital financing, new saving offerings such as the "Fils Challenge", and an analytics feature providing customers a self-service platform for analyzing their banking activities. Looking ahead, the Bank's Innovation Lab plans to further accelerate its rollouts with a focus on Private Banking and SME customers, alongside a variety of new digital-only services and business offerings.

On behalf of all the Board members, I would like to take this opportunity to express our gratitude for the visionary leadership of His Majesty King Hamad bin Isa Al Khalifa and His Royal Highness Prince Salman bin Hamad Al Khalifa, the Crown Prince and Prime Minister. Their guidance and wise directives during these unprecedented times and the responsiveness of the Kingdom's various Government institutions have bolstered the nation's stability and confidence in overcoming profound challenges. We would also like to express our gratitude to the Ministry of Finance and National Economy, the Ministry of Industry, Commerce and Tourism, the CBB, the Bahrain Bourse, Dubai Financial Market, as well as the Group's correspondent banks, customers, shareholders, partners and employees for their continued support and co-operation.

We look forward to a year ahead of increased growth, and a brighter outlook in 2022.

Finally, in line with the Commercial Companies Law No. (21) of 2001 and its amendments, and pursuant to the provisions of Article No. (188) of the Commercial Companies Law and Article No. (125) of the Executive Regulations of Resolution No. (3) for the year 2022, we are pleased to attach the table below that shows the remuneration of members of the Board and the Executive Management for the year ending 31 December 2021.

First: Board of directors' remuneration details:

Name	Fixed remunerations					Variable remunerations							
	Remunerations of the chairman and BOD	Total allowance for attending Board and committee meetings	Salaries	Others*	Total	Remunerations of the chairman and BOD	Bonus	Incentive plans	Others**	Total	End-of-service award	Aggregate amount (Does not include expense allowance)	Expenses Allowance
First: Independent Directors:													
1 Mr. Alhur Mohammed Al Suwaidi	75,000	64,000	-	-	139,000	-	-	-	-	-	-	139,000	-
2 Mr. Khalid Salem Al Halyan	75,000	64,000	-	-	139,000	-	-	-	-	-	-	139,000	-
3 Mr. Salim Abdullah Al Awadi	75,000	52,000	-	-	127,000	-	-	-	-	-	-	127,000	-
4 Mr. Tariq Abdul Hafidh Salim Al-Aujaili	75,000	48,000	-	-	123,000	-	-	-	-	-	-	123,000	-
Second: Non-Executive Directors:													
1 H.E. Sheikh Khalid bin Mustahail Al Mashani	90,000	66,000	-	-	156,000	-	-	-	-	-	-	156,000	-
2 Mr. Matar Mohamed Al Blooshi	75,000	52,000	-	-	127,000	-	-	-	-	-	-	127,000	-
3 Mr. Salman Saleh Al Mahmeed	75,000	52,000	-	-	127,000	-	-	-	-	-	-	127,000	-
4 Mr. Zayed Ali Al-Amin	75,000	44,000	-	-	119,000	-	-	-	-	-	-	119,000	-
5- Mr. Hisham Al Saie	75,000	36,000	-	-	111,000	-	-	-	-	-	-	111,000	-
Third: Executive Directors:													
1	-	-	-	-	-	-	-	-	-	-	-	-	-
2	-	-	-	-	-	-	-	-	-	-	-	-	-
Total	690,000	478,000	-	-	1,168,000	-	-	-	-	-	-	1,168,000	-

To receive the Shari'a Supervisory Board's report for the financial year ended 31 December 2021.

Fatwa & Shari'a Supervisory Board Report to the Shareholders

In the name of Allah, the Beneficent and the Merciful

*Praise be to Allah; Prayers and peace be upon the most ennobled messenger,
our Prophet Muhammad and his companion*

The Report of Shari'a Supervisory Board of Al Salam Bank B.S.C. ("the Board") submitted to the General Assembly on the Bank's activities during the financial year ending 31 December 2021.

First: Memorandum and Articles of Association

Al Salam Bank, B.S.C. operates as an Islamic Bank authorized by the Central Bank of Bahrain. We therefore confirm that the Memorandum and Articles of Association of the Bank are in conformity with the rules and principles of Shari'a.

Second: Activities of the Bank and Board's Guidance

The Board has supervised the activities and transactions of the Bank during the reporting year and instructed and guided various departments to comply with the rules and principles of Shari'a and fatwas of the Board while undertaking such activities and transactions. During the year, the SSB has held four meetings online due to Covid 19 with the senior staff of the Bank.

Third: Contracts and Transactions

The Board studied the operational structures that have been presented to it during the year, approved their contracts and documents, and responded to the questions and inquiries that were raised in respect thereof and issued decisions and fatwas in this regard. These fatwas and decisions have been circulated to the concerned departments of the Bank for execution and implementation. It has also reviewed and studied drafts of the contacts and agreements that were presented to it in respect to sukuks (investment certificates), syndicated financing transactions and investment funds and approved them after its comments were considered.

Fourth: Access to Records

The Management of the Bank has positively cooperated with the Board and, based on its request, allowed it to access the records, information and data of the Bank that are necessary for it to perform the Sharia audit and supervision.

Fifth: Shari'a Audit

The Board has reviewed Internal Shari'a Audit reports and pointed out its observations on the reports. The Board further reviewed the external Shari'a Auditor observations and took note of these observations.

Sixth: Training

The Board has taken note of the efforts of the Bank's Management in training its employees and recommended that the Management continues to conduct regular training programmes for its employees in order to raise the level of performance and Shari'a compliance.

Seventh: Balance Sheet

The Board has reviewed the balance sheet, profit and loss accounts, accounting policies for the preparation of the financial statement and the basis of distributing dividends to the shareholders and depositors.

The Board believes that the financial numbers presented in the balance sheet, to the extent of correct presentation and information provided by the Bank's Management and the Bank's compliance with some observations, did not result from non-compliance of the underlying transactions with the rules and principles of Shari'a. The Bank got rid of non-Sharia compliant earnings. The Board, therefore, approved the balance sheet.

Eighth: Zakat

Since the Articles of Association of the Bank do not oblige the Bank to pay zakat on the invested Shareholder's equity, the Board has reviewed the calculation of the Zakat payable by the shareholders in order to be communicated to the shareholders. The zakat calculation was prepared in line with Shari'a Standards on Zakat issued by Accounting and Auditing Organization for Islamic Financial Institutions ("AAOIFI"). Resultantly, the Board approved the calculation of Zakat and instructed the bank to notify Shareholders of the Zakat for this year, either through a disclosure in the balance sheet or any other means.

Ninth: Charity Fund

The Board has ensured that all non-Sharia compliant income and dividends are channelled to the Bank's Charity Fund, which are noted to be resulted from either the previous transactions due to merger and conversion of conventional banks into Al Salam Bank or any other reason.

Decision of the Board

The Board emphasizes that compliance to the rules and principles of the Shari'a in respect of all the businesses and transactions of the Bank is the responsibility of the Bank's Management. The Board confirms that the transactions executed by the Bank during the year, to the extent of the information and data made available to it by the Bank's Management, do not conflict, in general, with the rules and principles of Shari'a. The Board also confirms that the accuracy of information, data, numbers, and correctness of the profit distribution are the responsibility of the management.

Allah is the guider to the right path.

The Board wishes for the Bank a continuous success and rectitude in doing things that pleases Allah.

Fatwa and Shari'a Supervisory Board

Shaikh Adnan Abdulla AlQattan
Chairman

Dr. Fareed Yaqoob AlMeftah
Vice Chairman

Dr. Nedham Mohamed Yaqoobi

To receive the external auditor's report on the consolidated financial statements of the Bank for the financial year ended 31 December 2021.

Independent Auditors' Report to the Shareholders

Al Salam Bank B.S.C.
Manama, Kingdom of Bahrain

Report on the audit of the consolidated financial statements

Opinion

We have audited the accompanying consolidated financial statements of Al Salam Bank B.S.C (formerly Al Salam Bank- Bahrain B.S.C.) (the "Bank"), and its subsidiaries (together the "Group") which comprise the consolidated statement of financial position as at 31 December 2021, the consolidated statements of income, changes in equity, cash flows, for the year then ended, and notes, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2021, and consolidated results of its operations, changes in equity, its cash flows, for the year then ended in accordance with the Financial Accounting Standards ("FAS") issued by the Accounting and Auditing Organisation for Islamic Financial Institutions ("AAOIFI") as modified by the Central Bank of Bahrain (the "CBB").

In our opinion, the Group has also complied with the Islamic Shariah Principles and Rules as determined by the Group's Shariah Supervisory Board during the year ended 31 December 2021.

Basis for Opinion

We conducted our audit in accordance with Auditing Standards for Islamic Financial Institutions ("ASIFIs") issued by AAOIFI. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with AAOIFI's Code of Ethics for Accountants and Auditors of Islamic Financial Institutions, together with the ethical requirements that are relevant to our audit of the consolidated financial statements in the Kingdom of Bahrain, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Impairment allowance on financing and finance lease assets

See disclosure on use of estimates and judgment in Note 2.4, accounting policy in Note 2.5 (d) and management of credit risk in Note 31.2 to the consolidated financial statements.

The key audit matter	How the matter was addressed in our audit
<p>We focused on this area because:</p> <ul style="list-style-type: none">of the significance of financing and finance lease assets representing 51% of total assets;impairment of financing assets and assets acquired for leasing involves:<ul style="list-style-type: none">complex estimates and judgement over both timing and recognition of impairment including susceptibility to management bias;	<p>Our procedures, amongst others, included:</p> <ul style="list-style-type: none">Evaluating the appropriateness of the accounting policies adopted based on the requirements of applicable accounting standards, regulatory guidance, our business understanding and industry practice.Confirming our understanding of management's processes, systems and controls over the ECL process <p>Control testing</p> <p>We performed process walkthroughs to identify the key systems, applications and controls associated with the ECL calculation process.</p> <p>Key aspects of our control testing involved the following:</p> <ul style="list-style-type: none">Testing controls over the transfer of data between underlying source systems and the ECL models that the Group operates.Performing a detailed credit risk assessment for a sample of performing corporate contracts to test controls over the credit rating and monitoring process.Testing controls over the review and approval of post model adjustments and management overlays and the governance process over such overlays.Testing controls over the modelling process, including governance over model monitoring, validation and approval.

Independent Auditors' Report to the Shareholders (continued)

The key audit matter	How the matter was addressed in our audit
<ul style="list-style-type: none"> ➤ use of statistical models and methodologies for determination of expected credit losses. The Group exercises significant judgments and makes a number of assumptions in developing its expected credit loss ('ECL) models which is determined as a function of the assessment of the probability of default ("PD"), loss given default ("LGD"), and exposure at default ("EAD") associated with the underlying financial assets; and ➤ complex disclosure requirements regarding credit quality of the portfolio including explanation of key judgments and material inputs used in determination of expected credit losses; <ul style="list-style-type: none"> • The need to measure ECLs on an unbiased forward-looking basis incorporating a range of economic conditions. Significant management judgment is applied in determining the economic scenarios used and the probability weightings applied to them; and • Adjustments to the ECL model results are made by management to address known impairment model limitations or emerging trends or risks. The assumptions regarding the economic outlook are more uncertain due to COVID-19 which, combined with government response (e.g. deferral programs and government stimulus package), increases the level of judgement required by the Group in calculating the ECL. 	<p>Tests of details</p> <p>Key aspects of our testing involved:</p> <ul style="list-style-type: none"> • Reviewing a sample of credit files for performing accounts and evaluating the financial performance of the borrower, source of repayment and eligible collateral and on this basis assess the appropriateness of credit rating and staging. • Sample testing over key data inputs used in estimating the ECL and assessing the completeness, accuracy and relevance of data used. • Testing the mathematical accuracy of the ECL model calculations. • Reviewing the impact on ECL on account of COVID 19 with specific focus on reassessment of macroeconomic factors, probability weights, impact of financial stress on various industries and the consideration of regulatory guidance. • Sample testing over factors used to determine whether significant increase in credit risk has been appropriately identified. • Selecting a sample of post model adjustments and management overlays in order to assess the reasonableness of the adjustments by challenging key assumptions, testing the underlying calculation and tracing a sample back to source data. • Assessing the adequacy of provisions against individually impaired loans and advances (stage 3) in accordance with the applicable reporting standards <p>Use of specialists</p> <p>For the relevant portfolios examined, we have involved KPMG specialists to assist us in assessing IT system controls and challenging key management assumptions used in estimating expected credit losses. Key aspects of their involvement included the following:</p> <ul style="list-style-type: none"> • We involved our IT Risk Management (IRM) specialists to test the relevant General IT and Application Controls over key systems used for data extraction as part of the ECL calculation process. • We involved our Financial Risk Management (FRM) specialists in: • Evaluating the appropriateness of the Groups' ECL methodologies (including the staging criteria used); • Re-performing the calculation of certain components of the ECL model (including the staging criteria); • Evaluating the appropriateness of the Group's methodology for determining the economic scenarios used and the probability weightings applied to them; and • Evaluating the overall reasonableness of the management forward-looking estimates by comparing it to external market data and our understanding of the underlying sector and macroeconomic trends, including the impact of COVID-19. <p>Disclosures</p> <p>We assessed the adequacy of the Group's disclosure in relation to use of significant estimates and judgement and credit quality of financing and finance lease assets by reference to the requirements of relevant accounting standards.</p>

Valuation of unquoted equity investments

Refer to accounting policy in Note 2.5 (k), use of estimates and judgments in Note 2.4 and Note 41 to the consolidated financial statements

The key audit matter	How the matter was addressed in our audit
<p>Non-trading investments include investment in unquoted equity securities that are carried at their fair values.</p> <p>We considered this as a key audit area we focused on because the valuation of unquoted equity securities (level 3 financial instruments) held at fair value requires the application of valuation techniques which often involve the exercise of significant judgment by the Group and the use of significant unobservable inputs.</p>	<p>Our procedures, amongst others, included:</p> <ul style="list-style-type: none"> • Comparing the key underlying financial data inputs to external sources, investee company financial and management information, as applicable; • Assessing the qualification and experience of the independent valuers by reading the terms of their engagement letter to determine whether there were any matters that might have affected their objectivity or limited their scope of work; and • With the involvement of our own valuation specialists, we performed the following testing: <ul style="list-style-type: none"> ➢ evaluating the appropriateness of the valuation methodology used by the Group and its appointed experts, where applicable and compared with observed industry practice; and ➢ For assets valued using the residual method, evaluating the reasonableness of key inputs and assumptions used by using our knowledge of the industries in which the investees operate and industry norms; ➢ Evaluating the adequacy of the Group's disclosures related to valuation of unquoted equity instruments by reference to the relevant accounting standards.

Valuation of investment properties

Refer to accounting policy in Note 2.5 (m), use of estimates and judgments in Note 2.4 and Note 13 to the consolidated financial statements

The key audit matter	How the matter was addressed in our audit
<p>We considered this as a key audit area we focused on because of:</p> <ul style="list-style-type: none"> • the uncertainty prevalent in the property market; and • application of valuation techniques which often involve the exercise of judgment and the use of assumptions and estimates. 	<p>Our procedures, amongst others, included:</p> <ul style="list-style-type: none"> • With the involvement of our real estate valuation specialists, who by reference to their knowledge of the industry and available historical data: <ul style="list-style-type: none"> ➢ evaluating the appropriateness of the valuation methodology used by the independent property valuer appointed by the Group; and ➢ for assets valued using the residual method, challenging the inputs and assumptions used in the valuation; • Assessing the qualification and experience of the independent property valuers by reading the terms of their engagement letter to determine whether there were any matters that might have affected their objectivity or limited their scope of work; and • evaluating the adequacy of the Group's disclosures related to valuation of investment properties by reference to the relevant accounting standards.

Independent Auditors' Report to the Shareholders (continued)

Other Information

The board of directors is responsible for the other information. The other information comprises the annual report but does not include the consolidated financial statements and our auditors' report thereon. Prior to the date of this auditors' report, we obtained the board of directors' report and other sections which forms part of the annual report.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information that we have obtained prior to the date of this auditors' report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Board of Directors for the Consolidated Financial Statements

The board of directors is responsible for the Group's undertaking to operate in accordance with Islamic Sharia Rules and Principles as determined by the Group's Shariah Supervisory Board.

The board of directors is also responsible for the preparation and fair presentation of the consolidated financial statements in accordance with FAS as modified by CBB, and for such internal control as the board of directors determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the board of directors is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the board of directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ASIFIs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ASIFIs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the board of directors.

- Conclude on the appropriateness of the board of directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Regulatory Requirements

As required by the Commercial Companies Law and Volume 2 of the Rulebook issued by the Central Bank of Bahrain, we report that:

- a) the Bank has maintained proper accounting records and the consolidated financial statements are in agreement therewith;
- b) the financial information contained in the chairman's report is consistent with the consolidated financial statements;
- c) we are not aware of any violations during the year of the Commercial Companies Law, the CBB and Financial Institutions Law No. 64 of 2006 (as amended), the CBB Rule Book (Volume 2, applicable provisions of Volume 6 and CBB directives), the CBB Capital Markets Regulations and associated resolutions, the Bahrain Bourse rules and procedures or the terms of the Bank's memorandum and articles of association that would have had a material adverse effect on the business of the Bank or on its financial position; and
- d) satisfactory explanations and information have been provided to us by management in response to all our requests.

The engagement partner on the audit resulting in this independent auditors' report is Mahesh Balasubramanian.

Consolidated Statement of Cash Flows

Year ended 31 December 2021

	2021 BD '000	2020 BD '000
OPERATING ACTIVITIES		
Net profit for the year	21,224	9,118
Adjustments:		
Depreciation	1,283	1,882
Loss from non-trading investments and properties	3,506	10,616
Net impairment charge	9,163	18,277
Amortisation of premium on Sukuk - net	1,016	-
Impact of modification loss	-	(23,170)
Share of profit from associates	(2,697)	(1,953)
Operating income before changes in operating assets and liabilities	33,495	14,770
Changes in operating assets and liabilities:		
Mandatory reserve with Central Bank	(10,530)	10,093
Balances with other banks	-	(9,955)
Murabaha and Wakala receivables from banks with original maturities of 90 days or more	(2,019)	-
Financing assets and finance lease assets	(86,520)	(224,612)
Other assets	(10,990)	(7,109)
Placements from financial institutions	10,100	(94,576)
Customers' current accounts	118,769	74,514
Other liabilities	2,864	14,912
Equity of investment accountholders	398,797	190,637
Net cash from / (used in) operating activities	453,966	(31,326)
INVESTING ACTIVITIES		
Sovereign Sukuk	(221,487)	(46,440)
Corporate Sukuk	(9,904)	5,743
Non-trading investments and properties	12,079	4,147
Purchase of premises and equipment	(2,815)	(2,304)
Net cash used in investing activities	(222,127)	(38,854)
FINANCING ACTIVITIES		
Murabaha term financing	(121,455)	76,081
Dividends paid	(1,139)	(12,993)
Purchase of treasury shares	(4,943)	(772)
Net cash (used in) / from financing activities	(127,537)	62,316
NET CHANGE IN CASH AND CASH EQUIVALENTS	104,302	(7,864)
Cash and cash equivalents at 1 January	291,645	299,509
CASH AND CASH EQUIVALENTS AT 31 DECEMBER	395,947	291,645
Cash and cash equivalents comprise of:*		
Cash and other balances with Central Bank	79,458	82,286
Balances with other banks **	184,648	171,253
Placements with financial institutions with original maturities of less than 90 days	131,841	38,106
	395,947	291,645

*Cash and cash equivalents is gross of the expected credit loss of BD 87 thousands (2020: BD 217 thousands).

**Balances with other banks is net of restricted cash of BD 9,746 thousands which is not available for day to day operations.

The attached notes 1 to 45 form part of these consolidated financial statements.

Notes to the Consolidated Financial Statements

1 REPORTING ENTITY

Al Salam Bank B.S.C. ("the Bank") was incorporated in the Kingdom of Bahrain under the Bahrain Commercial Companies Law No. 21/2001 and registered with Ministry of Industry, Commerce and Tourism ("MOICT") under Commercial Registration number 59308 on 19 January 2006. The Bank is regulated and supervised by the Central Bank of Bahrain ("the CBB") and has an Islamic retail banking license and operates under Islamic principles in accordance with all relevant regulatory guidelines for Islamic banks issued by the CBB. The Bank in its extraordinary general meeting held on 30 September 2021, obtained shareholders' approval for change of name from Al Salam Bank- Bahrain B.S.C to Al Salam Bank B.S.C. The legal formalities in this respect have been completed on 28 October 2021.

The Bank's registered office is at Building 935, Road 1015, Block 410, Sanabis, Kingdom of Bahrain. The Bank's ordinary shares are listed in Bahrain Bourse and Dubai Financial Market.

The principal subsidiaries are as follows:

Name of entity	Country of incorporation	Principal activities	% Holding	
			2021	2020
ASB Seychelles ("ASBS")	Seychelles	Provide Banking services	70%	70%
ASB Biodiesel (Hong Kong) Limited	Hong Kong	Production of Biodiesel	36%	36%

The Bank and its principal banking subsidiary operates through 9 branches in the Kingdom of Bahrain and one branch in Seychelles and offer a full range of Shari'a-compliant banking services and products. The activities of the Bank includes managing profit sharing investment accounts, offering Islamic financing contracts, dealing in Shari'a-compliant financial contracts as principal / agent, managing Shari'a-compliant financial contracts and other activities permitted for under the CBB's Regulated Islamic Banking Services as defined in the licensing framework.

These consolidated financial statements have been authorised for issue in accordance with a resolution of the Board of Directors dated 12 February 2022.

2 ACCOUNTING POLICIES

2.1 BASIS OF PREPARATION AND PRESENTATION

The consolidated financial statements of the Group are prepared on a historical cost basis, except for investment in sovereign and corporate sukuk, non-trading investments, investments properties and certain derivatives financial instruments, which are carried at fair value.

These consolidated financial statements are presented in Bahraini Dinars, being the functional and presentation currency of the Bank, rounded to the nearest thousand [BD '000], except where otherwise indicated.

The accounting policies used in the preparation of annual audited consolidated financial statements of the Group for the year ended 31 December 2021 were in accordance with FAS as issued by AAOIFI. However, except for the below-mentioned modifications to accounting policies that have been applied retrospectively and impact of adoption of new standards (note 2.3), all other accounting policies remain the same and have been consistently applied in this consolidated financial statements. The retrospective application of the change in accounting policies on adoption of FAS as modified by CBB did not result in any change to the financial information reported for the comparative period.

The consolidated financial statements of the Group have been prepared in accordance with applicable rules and regulations issued by the Central Bank of Bahrain ("CBB") including the CBB issued circulars on regulatory concessionary measures in response to COVID-19. These rules and regulations require the adoption of all Financial Accounting Standards issued by the Accounting and Auditing Organisation of Islamic Financial Institutions (AAOIFI) (FAS), except for:

(a) recognition of modification losses on financial assets arising from payment holidays provided to customers impacted by COVID-19 without charging additional profits, in equity instead of income statement as required by FAS issued by AAOIFI. Any other modification gain or loss on financial assets are recognised in accordance with the requirements of applicable FAS. Refer to note 2.2 for further details; and

(b) recognition of financial assistance received from the government and / or regulators as part of its COVID-19 support measures that meets the government grant requirement, in equity, instead of income statement as required by the statement on "Accounting implications of the impact of COVID-19 pandemic" issued by AAOIFI, to the extent of any modification loss recorded in equity as a result of (a) above, and the excess amount to be recognized in income statement. Any other financial assistance is recognised in accordance with the requirements of FAS.

The above framework for basis of preparation of the consolidated financial statement is hereinafter referred to as 'Financial Accounting Standards as modified by CBB'.

Notes to the Consolidated Financial Statements (continued)

31 December 2021

2 ACCOUNTING POLICIES (continued)

2.1 BASIS OF PREPARATION AND PRESENTATION (continued)

In line with the requirements of AAOIFI and the CBB rule book, for matters not covered under AAOIFI standards the group takes guidance from the relevant International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB").

2.2 COVID-19 IMPACT

On 11 March 2020, the Coronavirus (COVID 19) outbreak was declared a pandemic by the World Health Organization (WHO) and has rapidly evolved globally. This has resulted in a global economic slowdown with uncertainties in the economic environment. Global equity and commodity markets have also experienced great volatility and a significant drop in prices. The estimation uncertainty is associated with the extent and duration of the expected economic downturn and forecasts for key economic factors including GDP, employment, oil prices etc. This includes disruption to capital markets, deteriorating credit markets and liquidity concerns.

The management and the Board of Directors (BOD) has been closely monitoring the potential impact of the COVID 19 developments on the Group's operations and financial position; including possible loss of revenue, impact on asset valuations, impairment, review of onerous contracts and debt covenants, outsourcing arrangements etc. The Group has also put in place contingency measures, which include but are not limited to enhancing and testing of business continuity plans including its liquidity requirements.

In preparing the consolidated financial statements, judgements made by management in applying the Group's accounting policies and sources of estimation are subject to uncertainty regarding the potential impacts of the current economic volatility and these are considered to represent management's best assessment based on available or observable information.

As of 31 December 2021, the Bank is compliant with the required regulatory capital adequacy ratio, net stable funding ratio and liquidity coverage ratios.

IMPACT OF COVID-19 CONCESSIONARY MEASURES

Modification of financial assets

During the previous year, based on a regulatory directive issued by the CBB as concessionary measures to mitigate the impact of COVID-19, the one-off modification losses amounting to BD 24,768 thousands arising from the 6-month payment holiday provided to financing customers without charging additional profit has been recognized directly in equity. The modification loss had been calculated as the difference between the net present value of the modified cash flows calculated using the original effective profit rate and the current carrying value of the financial assets on the date of modification. During 2020, the Group provided payment holiday on financing exposures amounting to BD 896,279 thousands as part of its support to impacted customers.

2.3 BASIS OF CONSOLIDATION

(i) Business combinations

Business combinations are accounted for using the acquisition method when the acquired set of activities meets the definition of a business. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets.

In a business combination achieved in stages, the group remeasures its previously held equity interest in the acquiree at its acquisition date fair value and recognises the resulting gain or loss, if any, in the consolidated income statement.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.

In a business combination in which the Bank and the acquiree exchange only equity interests, the acquisition-date fair value of the acquiree's equity interests is used to determine the amount of goodwill.

The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Any goodwill that arises is tested annually for impairment (see 2.5 (q)). Any gain on a bargain purchase is recognised in consolidated income statement immediately. Transaction costs are expensed as incurred, except if related to the issue of debt or equity securities.

2 ACCOUNTING POLICIES (continued)

2.3 BASIS OF CONSOLIDATION (continued)

(i) Business combinations (continued)

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognised in consolidated income statement.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not remeasured and settlement is accounted for within equity. Otherwise, other contingent consideration is remeasured at fair value at each reporting date and subsequent changes in the fair value of the contingent consideration are recognised in consolidated income statement.

Investments acquired that do not meet the definition of business combination are recorded as assets acquisitions e.g. financial assets or investment in properties as appropriate. When such investments are acquired, the Group allocates the cost of acquisition between the individual identifiable assets and liabilities based on their relative fair values at the date of acquisition. Cost of such assets is the sum of all consideration given and any non-controlling interest recognised. If the non-controlling interest has a present ownership interest and is entitled to a proportionate share of net assets upon liquidation, the Group recognises the non-controlling interest at its proportionate share of net assets.

(ii) Subsidiaries

The consolidated financial statements comprise the financial statements of the Bank and its subsidiaries as at 31 December 2021. The financial statements of the subsidiaries are prepared for the same reporting year. All subsidiaries are using consistent accounting policies of the Bank.

Subsidiaries are those enterprises (including special purpose entities) controlled by the Bank. Control exists when the Group has the power, directly or indirectly, to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. Subsidiaries are consolidated from the date on which control is transferred to the Group and de-consolidated from the date that control ceases. Control is presumed to exist when the Bank owns majority of the voting rights in the investee.

Special purpose entities (SPEs) are entities that are created to accomplish a narrow and well-defined objective such as the securitisation of particular assets, or the execution of a specific financing or investment transaction and usually voting rights are not relevant for the operating of such entities. An investor that has decision-making power over an investee and exposure to variability of returns determines whether it acts as a principal or as an agent to determine whether there is a linkage between power and returns. When the decision maker is an agent, the link between power and returns is absent and the decision maker's delegated power does not lead to a control conclusion. Where the Group's voluntary actions, such as finance amounts in excess of existing liquidity facilities or extending terms beyond those established originally, change the relationship between the Group and an SPE, the Group performs a reassessment of control over the SPE.

The financial statements of SPE are not included in these consolidated financial statements except when the Group controls the entity. Information about the Group's fiduciary assets under management is set out in note 36.

(iii) Non-controlling interests

Non-controlling interests (NCI) are measured at their proportionate share of the acquiree's identifiable net assets at the date of acquisition. Profits or losses attributable to non-controlling interests are reported in the consolidated income statement as income attributable to non-controlling interests. Losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so causes the non-controlling interests to have a deficit balance.

The Group treats transactions with non-controlling interests as transactions with equity owners of the Group.

(iv) Loss of control

When the Group ceases to have control or significant influence, any retained interest in the entity is remeasured to its fair value, with the change in carrying amount recognised in the consolidated income statement. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in equity in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other equity are reclassified to the consolidated income statement.

Notes to the Consolidated Financial Statements (continued)

31 December 2021

2 ACCOUNTING POLICIES (continued)

2.3 BASIS OF CONSOLIDATION (continued)

(v) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised gains arising from intra-group transactions are eliminated in preparing the consolidated financial statements. Intra-group gains on transactions between the Group and its equity accounted associates are eliminated to the extent of the Group's profit in the investees. Unrealised losses are also eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment. Accounting policies of the subsidiaries and associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

(vi) Foreign currency

(a) Functional and presentation currency

Items included in the consolidated financial statements are measured using the currency of the primary economic environment in which the entity operates (the functional currency). The consolidated financial statements are presented in Bahraini Dinars, which is the Bank's functional and presentation currency.

(b) Foreign currencies

Foreign currency transactions are recorded at rates of exchange prevailing at the dates of the transactions. Monetary assets and liabilities in foreign currencies at the consolidated statement of financial position date are retranslated at market rates of exchange prevailing at that date. Gains and losses arising on translation are recognised in the consolidated income statement. Non-monetary assets that are measured in terms of historical cost in foreign currencies are recorded at rates of exchange prevailing at the value dates of the transactions. Translation gains or losses on non-monetary items classified as "fair value through equity" are included in consolidated statement of changes in equity until the related assets are sold or derecognised at which time they are recognised in the consolidated income statement. Translation gains on non-monetary assets classified as "fair value through consolidated income statement" are directly recognised in the consolidated income statement as part of fair value changes.

(c) Translation of foreign operations

Assets and liabilities of foreign subsidiaries and associates whose functional currency is not Bahraini Dinars are translated into Bahraini Dinars at the rates of exchange prevailing at the reporting date. Income and expense items are translated at average exchange rates prevailing for the reporting year. Any exchange differences arising on translation are included in foreign exchange translation reserve forming part of equity except to the extent that the translation difference is allocated to the non-controlling interest. On disposal of foreign operations, exchange differences relating thereto and previously recognised in foreign exchange translation reserve are recognised in the consolidated statement of changes in equity.

2.4 SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of the consolidated financial statements requires management to make judgments and estimates that affect the reported amount of financial assets and liabilities and disclosure of contingent liabilities. These judgments and estimates also affect the revenues and expenses and the resultant allowance for losses as well as fair value changes reported in equity.

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimating uncertainty at the date of the consolidated statement of financial position, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Impairment assessment of financial contracts subject to credit risk

In determining expected credit losses ('ECL') on financial contracts subject to credit risk, significant estimates are made in determination of inputs into the ECL measurement model, including key assumptions used in estimating recoverable cash flows and incorporation of forward-looking information. Refer to notes 2.5 (d) and 31.2 for further details.

2 ACCOUNTING POLICIES (continued)

2.4 SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES (continued)

Impairment of goodwill

Impairment exists when carrying value of an asset or cash generating unit (CGU) exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use.

The recoverable amount of the cash-generating unit's goodwill is based on value-in-use calculations using cash flow projections from financial budgets approved by the Board of Directors, extrapolated for three years projection using nominal projected growth rate. The determination of projected growth rate and discount rate involves judgment whereas, preparation of cash flow projections requires various management assumptions.

The methodology and assumptions used for estimating future cash flows are reviewed regularly to reduce any differences between loss estimates based on the actual loss experience. Refer note 15 for further details.

Impairment of fair value through equity investments

The Group determines that investments carried at fair value through equity are impaired when there has been a significant or prolonged decline in the fair value below their cost. This determination of what is significant or prolonged requires judgment. In the case of quoted equity securities in active markets, the Group generally considers a decline in value below cost of 30%, or a decline that persists for more than 9 months as an indicator of impairment. In the case where markets for the investment are assessed to be inactive, the Group determines impairment based on its assessment of fair value and the investee companies' financial health, industry and sector performance.

Fair value of unquoted equity

The Group determines fair value of equity investments that are not quoted in active markets by using valuation techniques such as discounted cash flows, income approaches and market approaches. Fair value estimates are made at a specific point in time, based on market conditions and information about the investee companies. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore, cannot be determined with precision. There is no certainty about future events (such as continued operating profits and financial strengths). It is reasonably possible, based on existing knowledge, that outcomes within the next financial year that are different from assumptions could require a material adjustment to the carrying amount of the investments. In case where discounted cash flow models have been used to estimate fair values, the future cash flows have been estimated by the management based on information from and discussions with representatives of investee companies and based on the latest available audited and un-audited financial statements. The basis of valuation has been reviewed by the Management in terms of the appropriateness of the methodology, soundness of assumptions and correctness of calculations and have been approved by the Board of Directors for inclusion in the consolidated financial statements.

Valuation of investments in private equity and joint ventures in real estate measured at fair value through profit and loss involve judgment and is normally based on one of the following:

- valuation by independent external valuers for underlying properties / projects;
- recent arm's length market transactions;
- current fair value of another contract that is substantially similar;
- present value of expected cash flows at current rates applicable for items with similar terms and risk characteristics; or
- application of other valuation models.

Estimating fair value of investment property and net realisable value of development property

Investment properties are carried at their fair values. Development property is stated at lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less estimated selling expenses.

The Group appoints experienced external valuers under A category approved by Real Estate Regulatory Authority to determine the market value of the investment and development properties at the statement of financial position date. For large development projects, a residual value approach is adopted which forecasts future cost to completion and use of the expected development. The management has forecasted the cost of completion of development property and has engaged independent valuers to estimate the residual value of the development property based on estimated / forecasted market selling prices for similar properties. Net realisable value estimates are made at a specific point in time, based on market conditions and information about the expected use of development property.

Notes to the Consolidated Financial Statements (continued)

31 December 2021

2 ACCOUNTING POLICIES (continued)

2.4 SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES (continued)

Estimating fair value of investment property and net realisable value of development property (continued)

The 31 December 2021 valuation of certain assets contains a 'material valuation uncertainty' clause due to the market disruption caused by the COVID-19 pandemic, which resulted in a reduction in transactional evidence and market yields. This clause does not invalidate the valuation but implies that there is substantially more uncertainty than under normal market conditions. Accordingly, the valuer cannot attach as much weight as usual to previous market evidence for comparison purposes, and there is an increased risk that the price realised in an actual transaction would differ from the value conclusion. As a result of this increased uncertainty, the assumptions may be revised significantly in 2022.

The Group calibrates the valuation techniques yearly and tests these for validity using either prices from observable current market transactions in the same contract or other available observable market data.

Judgments

Going concern

The management has made an assessment of the Group's ability to continue on a going concern and is satisfied that the Group has the resources to continue in business for the foreseeable future. Furthermore, the management is not aware of any material uncertainties that may cast significant doubt upon the Group's ability to continue as a going concern. Therefore, the consolidated financial statements continue to be prepared on the going concern basis.

Control over special purpose entities

The Group sponsors the formation of special purpose entities (SPE's) primarily for the purpose of allowing clients to hold investments. The Group provides corporate administration, investment management and advisory services to these SPE's, which involve the Group making decisions on behalf of such entities. The Group administers and manages these entities on behalf of its clients, who are by and large third parties and are the economic beneficiaries of the underlying investments. The Group does not consolidate SPE's that it does not have the power to control directly or indirectly, to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. In determining whether the Group has the power to control an SPE, judgements are made about the objectives of the SPE's activities, its exposure to the risks and rewards, as well as about the Group intention and ability to make operational decisions for the SPE and whether the Group derives benefits from such decisions.

Investment classification

In the process of applying the Group's accounting policies, management decides on acquisition of an investment whether it should be classified as investments carried at fair value through income statement or investments carried at fair value through equity or investments carried at amortised cost. The classification of each investment reflects the management's intention in relation to each investment and is subject to different accounting treatments based on such classification.

Significant judgement is involved in assessment of the business model within which the investments are managed and assessment of whether the contractual terms of the investment represents either a debt-type instrument or other investment instrument having reasonably determinable effective yield.

Impairment on equity-type investments classified as fair value through equity

In the case of equity-type investments classified as fair value through equity and measured at fair value, a significant or prolonged decline in the fair value of an investment below its cost is considered in determining whether the investments are impaired. If any such evidence exists for equity-type investments classified as fair value through equity, the cumulative loss previously recognised in the consolidated statement of changes in equity is removed from equity and recognised in the consolidated statement of income. Impairment losses recognised in the consolidated statement of income on equity-type investments are subsequently reversed through equity.

2 ACCOUNTING POLICIES (continued)

2.4 SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES (continued)

In the current uncertain and extra-ordinary market conditions, for the purpose of determination of what constitutes significant or prolonged decline in fair value of investments, the management takes into account the following additional factors:

- Their intention relating to the respective holding years of such investments i.e. for trading purposes, or with intention for strategic investment, or for long-term dividends and capital gains etc.;
- As to whether the decline in value of investment is in line with the overall trend of decline in the relevant or local market corresponding to the uncertain economic condition as a result of COVID-19;
- Forecasts of expected recovery of market values within the expected holding years; and/ or
- Forecasts of the expected recovery of the core business of the investee entity within the expected holding years and consequential cash flows to the institution.

2.5 SIGNIFICANT ACCOUNTING POLICIES

a) Financial instruments

Financial assets consist of balances with banks and the Central Bank, Sovereign Sukuk, Corporate Sukuk, placements with financial institutions, Murabaha financing (net of deferred profits), Mudaraba financing, Musharaka financing, receivable under finance lease assets contracts, asset under conversion, non-trading investments in equity securities, derivatives used for risk management and other receivables.

Financial liabilities contracts consist of placement from financial institutions, placements from customers, customers' current accounts, murabaha term financing and other payables.

Except for sukuks, non-trading investments and derivatives used for risk management instruments, all financial assets and financial liabilities are carried at amortised cost.

A financial asset or financial liability is measured initially at fair value plus, for an item not at Fair Value Through Profit and Loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. The fair value of a financial instrument at initial recognition is generally its transaction price.

Amortized cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus the capital repayments, plus or minus the cumulative amortization using the effective profit method of any difference between the initial amount recognised and the maturity amount, minus any reduction (directly or through the use of an allowance account) for impairment or uncollectability. The calculation of the effective profit rate includes all fees paid or received that are an integral part of the effective profit rate.

b) Trade and settlement date accounting

The Group recognises financing, investments, deposits and equity of investment accountholders on the date on which they are originated. Purchases and sale of all other financial assets and liabilities are recognised on the trade date, i.e. the date that the Group contracts to purchase or sell the asset or liability.

c) Derecognition

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or where the Group has transferred substantially all risk and rewards of ownership.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to pay.

Financial liabilities are derecognised when the obligation specified in the contract is legally discharged, cancelled, or expired.

d) Impairment assessment

Impairment of financial assets and commitments

The Group applies three-stage approach to measure ECL on financial assets carried at amortised cost. Assets migrate through the following three stages based on the change in credit quality since initial recognition.

Notes to the Consolidated Financial Statements (continued)

31 December 2021

2 ACCOUNTING POLICIES (continued)

2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)

d) Impairment assessment (continued)

Impairment of financial assets and commitments (continued)

Stage 1: Twelve months ECL

For exposures where there has not been a Significant Increase in Credit Risk ("SICR"), since initial recognition, a portion of the lifetime ECL associated with the probability of default events occurring within next twelve months is recognised.

Twelve-month ECL (Stage 1) is the portion of ECL that results from probable default events on a financial contract within twelve months after the reporting date.

Stage 2: Lifetime ECL – not credit impaired

For credit exposures where there has been a SICR since initial recognition but that are not credit impaired, a lifetime ECL is recognised.

Lifetime ECL (Stage 2) is a probability-weighted estimate of credit losses and is determined based on the difference between the present value of all cash shortfalls. The cash shortfall is the difference between all contractual cash flows that are due to the Group and the present value of the recoverable amount, for financial assets that are not credit-impaired at the reporting date.

Stage 3: Lifetime ECL – credit impaired

Financial contracts are assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred.

For Stage 3 financial contracts, the provisions for credit-impairment are determined based on the difference between the net carrying amount and the recoverable amount of the financial contract.

Credit-impaired financial assets and assets acquired for leasing

At each reporting date, the Group assesses whether financial assets carried at amortised cost and finance lease assets are credit impaired. A financial asset and finance lease assets is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset and finance lease asset is credit-impaired includes the following observable data:

- significant financial difficulty of the customer or issuer;
- a breach of contract such as a default or being more than 90 days past due;
- the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise;
- it is probable that the customer will enter bankruptcy or other financial re-organization; or
- the disappearance of an active market for a security because of financial difficulties.

Write-offs

Financial assets are written-off (either partially or in full) when there is no realistic prospect of recovery. This is generally the case when the Group determines that the customer does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written-off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

Presentation of allowance for credit losses in the consolidated statement of financial position

Allowance for credit losses are presented in the consolidated statement of financial position as follows:

- financial assets measured at amortised cost, as a deduction from the gross carrying amount of the assets;
- financing commitments and financial guarantee contracts: generally as a provision under other liabilities; and
- where a financial contract includes both a drawn and undrawn component, and the Group has identified the ECL on the financing commitments / off-balance sheet component separately from those on the drawn component, the Group presents allowance for credit losses for drawn components. The amount is presented as a deduction from the gross carrying amount of the drawn component. Allowance for credit losses for the undrawn component is presented as a provision in other liabilities.

2 ACCOUNTING POLICIES (continued)

2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Cash and cash equivalents

For the purpose of the consolidated cash flows statement, "cash and cash equivalents" consist of cash on hand, balances with the Central Bank of Bahrain excluding mandatory reserve deposits, balances with banks and other financial institutions (excluding restricted balances) and placements with financial institutions with original maturities of 90 days or less when acquired.

f) Financing assets

Financing assets comprise of Sharia'a compliant financing contracts with fixed or determinable payments. These include financing provided through Murabaha, Musharaka, Mudaraba contracts and credit card-based receivables. Financing assets are recognised on the date they are originated and are carried at their amortised cost less allowance for expected credit losses, if any.

Modification of financing assets

If the terms of the financing asset are modified, then the Group evaluates whether the cashflows of the modified asset are substantially different. If the cashflows are substantially different, then the contractual rights to cashflows from the original financing asset are deemed to have expired. In this case, the original financing asset is derecognised and a new financing asset is recognised at fair value plus any eligible transaction cost.

If the modification of a financing asset measured at amortized cost does not result in the derecognition of the financing asset, then the Group first recalculates the gross carrying amount of the financing asset using the original effective profit rate of the asset and recognises the resulting adjustment as a modification gain or loss in consolidated income statement.

The above policy is applied for all reporting periods except for contracts that were subject CBB directives on COVID-19 related concessionary measures (refer note 2.2).

All Sharia compliant contracts are interpreted for accounting purposes in its entirety and all linked -contracts or promissory note arrangements are considered together with the main financing contract to reflect the single economic outcome and purpose of the contracts.

f-i) Murabaha financing

Murabaha is a contract whereby one party ("Seller") sells an asset to the other party ("Purchaser") at cost plus profit and on a deferred payment basis, after the Seller has purchased the asset based on the Purchaser's promise to purchase the same on such Murabaha basis. The sale price comprises the cost of the asset and an agreed profit margin. The sale price (cost plus the profit amount) is paid by the Purchaser to the Seller on installment basis over the agreed finance tenure. Under the Murabaha contract, the Group may act either as a Seller or a Purchaser, as the case may be.

The Group considers the promise to purchase made by the Purchaser in a Murabaha transaction in favor of the Seller to be binding.

f-ii) Mudaraba financing

Mudaraba is a contract between two parties whereby one party is a fund provider (Rab Al Mal) who would provide certain amount of funds (Mudaraba Capital), to the other party (Mudarib). Mudarib would then invest the Mudaraba Capital in a specific enterprise or activity deploying its experience and expertise for a specific pre-agreed share in the resultant profit. The Rab Al Mal is not involved in the management of the Mudaraba activity. The Mudarib would bear the loss in case of its default, negligence or violation of any of the terms and conditions of the Mudaraba contract; otherwise the loss would be borne by the Rab Al Mal. Under the Mudaraba contract, the Group may act either as Mudarib or as Rab Al Mal, as the case may be.

f-iii) Musharaka

Musharaka is used to provide venture or project finance. The Group and customer contribute towards the capital of the Musharaka. Profits are shared according to a pre-agreed profit distribution ratio, but losses are borne by the partners according to the capital contributions of each partner. Capital contributions may be in cash or in kind, as valued at the time of entering into the Musharaka.

g) Finance lease assets

Finance lease assets (also called Ijarah Mutahia Bitamleek contracts) is an agreement with the customers whereby the Group ("Lessor") leases an asset to the customer ("Lessee") after purchasing / acquiring a specified asset, either from a third-party seller or from the customer, according to the customer's request and promise to lease against certain rental payments for a specific lease term / years, payable on fixed and / or variable rental basis.

Notes to the Consolidated Financial Statements (continued)

31 December 2021

2 ACCOUNTING POLICIES (continued)

2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Finance lease assets (continued)

The finance lease agreement specifies the leased asset, duration of the lease term, as well as the basis for rental calculation, the timing of rental payment and responsibilities of both parties during the lease term. The Lessee provides the Lessor with an undertaking to renew the lease years and pay the relevant rental payment amounts as per the agreed schedule throughout the lease term.

The Lessor retains the ownership of the assets throughout the lease term. At the end of the lease term, upon fulfillment of all the obligations by the Lessee under the finance lease agreement, the Lessor will sell the leased asset to the Lessee for a nominal value based on sale undertaking given by the Lessor. Leased assets are usually in the type of residential properties, commercial real estate or aircrafts.

Depreciation is provided on a systematic basis on all Finance lease assets other than land (which is deemed to have an indefinite useful life), at rates calculated to write off the cost of each asset over the shorter of either the lease term or economic life of the asset.

The Group measures at each reporting date whether there is objective evidence that finance lease assets are impaired. Impairment loss is recognised when the carrying amount of assets exceeds its recoverable amount. The estimates of future cashflows, when dependent on a single customer, takes into consideration the credit evaluation of the customer in addition to other factors. Impairment losses, if any, are recognised in the income statement.

Modification of finance lease assets

If the terms of the finance lease assets are modified, then the Group evaluates whether the cashflows of the modified asset are substantially different. If the cashflows are substantially different, then the contractual rights to cashflows from the original finance lease assets are deemed to have expired. In this case, the original finance lease assets is derecognised and a new finance lease assets is recognised at fair value plus any eligible transaction cost.

If the modification of a finance lease assets measured at amortized cost does not result in the derecognition of the finance lease assets then the Group first recalculates the gross carrying amount of the finance lease assets using the original effective profit rate of the asset and recognises the resulting adjustment as a modification gain or loss in consolidated income statement.

h) Placements with financial institutions

Placements with financial institutions comprise of short-term treasury contracts with financial institutions in the form of Commodity Murabaha receivables and Wakala investments. These placements are stated at amortised cost net of deferred profits and allowance for credit losses, if any.

i) Sovereign Sukuk and Corporate Sukuk

These investments are in the nature of debt-type instruments that provide fixed or determinable payments of profits and capital. Sukuk that are assessed as debt-type securities are classified as investments carried at fair value through equity. Any change in fair value of the Sukuks will be recognized as a movement in the statement of changes in equity under fair value reserve. On de-recognition of Sukuks due to disposal, the balance in the fair value reserve will be recycled to the consolidated statement of income.

j) Assets and liabilities under conversion

Assets under conversion:

Loans and advances

At amortised cost less any amounts written off and allowance for credit losses, if any.

Non-trading investments

These are classified as fair value through equity investments and are fair valued based on criteria set out in note 2.5 (k).

2 ACCOUNTING POLICIES (continued)

2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)

k) Non-trading investments

Equity-type investments

Equity-type instruments are investments that do not exhibit features of debt-type instruments and include instruments that evidence a residual profit in the assets of an entity after deducting all its liabilities. Investments in equity type instruments are classified in the following categories: 1) at fair value through income statement ('FVTPL') or 2) at fair value through equity ('FVTE'), consistent with its investment strategy.

Recognition and de-recognition

Investment securities are recognised at the trade date i.e. the date that the Group contracts to purchase or sell the asset, at which date the Group becomes party to the contractual provisions of the instrument. Investment securities are derecognised when the rights to receive cash flows from the financial assets have expired or where the Group has transferred substantially all risk and rewards of ownership.

Measurement

Investment securities are measured initially at fair value, which is the value of the consideration given. For FVTE investments, transaction costs are expensed in the consolidated income statement. For other investment securities, transaction costs are included as a part of the initial recognition.

Subsequent to initial recognition, equity-type investments carried at FVTPL and FVTE are re-measured to fair value. Gains and losses arising from a change in the fair value of instruments carried at FVTPL are recognised in the income statement in the year which they arise. Gains and losses arising from a change in the fair value of investments carried at FVTE are recognised in the consolidated statement of changes in equity and presented in a separate fair value reserve within equity. When the investments carried at FVTE are sold, impaired, collected or otherwise disposed of, the cumulative gain or loss previously recognised in the statement of changes in equity is transferred to the consolidated income statement.

l) Investments in associates and joint ventures

The Group's investments in associates and joint ventures, that are acquired for strategic purposes, are accounted for under the equity method of accounting. Other equity investments in associates and joint ventures (note 2.5 (k)) are accounted for as fair value through consolidated income statement by availing the scope exemption under FAS 24, Investments in Associates. An associate is an entity over which the Group has significant influence, and which is neither a subsidiary nor a joint venture. An entity is considered as an associate if the Group has more than 20% ownership of the entity or the Group has significant influence through any other manner. A joint venture is an arrangement in which the Group has joint control, whereby the Group has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Under the equity method, investment in associate is carried in the consolidated statement of financial position at cost plus post-acquisition changes in the Group's share of net assets of the associates. Losses in excess of the cost of the investment in associates are recognised when the Group has incurred obligations on its behalf. Goodwill relating to an associate is included in the carrying amount of the investment and is not amortised. The consolidated income statement reflects the Group's share of results of operations of the associates. Where there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes and discloses this, when applicable, in the consolidated statement of changes in equity.

The reporting dates of the Group's associates are identical with the Group and the associates accounting policy conform to those used by the Group for like transactions and events in similar transactions.

After application of the equity method, the Group determines whether it is necessary to recognise an additional impairment loss on its investment in associates. The Group determines at each reporting date whether there is any objective evidence that the investment in associates are impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount in the consolidated income statement.

Profit and losses resulting from transactions between the Group and the associates are eliminated to the extent of the profit in associates.

Foreign exchange translation gains / losses arising out of the translation of net assets of investment in associates are included in the consolidated statement of changes in equity.

Notes to the Consolidated Financial Statements (continued)

31 December 2021

2 ACCOUNTING POLICIES (continued)

2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)

m) Investment properties

Properties held for rental, or for capital appreciation purposes, or both, are classified as investments in real estate. The investment in real estate is initially recognised at cost and subsequently measured based on intention whether the investments in real estate is held-for-use or held-for-sale. The Group has adopted the fair value model for its investments in real estate. Under the fair value model, any unrealized gains are recognised directly in owners' equity under the Real Estate Fair Value Reserve. Any unrealized losses are adjusted in equity to the extent of the available credit balance. Where unrealized losses exceed the available balance in owners' equity, these are recognised in the consolidated income statement. In case there are unrealized losses relating to investments in real estate that have been recognised in the consolidated income statement in a previous financial year, the unrealized gains relating to the current financial year is recognised to the extent of crediting back such previous losses in the consolidated income statement. Investments in real estate held-for-sale is carried at lower of its carrying value and expected fair value less costs to sell. Investments in real estate carried at fair value shall continue to be measured at fair value.

n) Development properties

Properties acquired exclusively for development are classified as development properties and are measured at the lower of cost or net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimates costs of completion and the estimated costs necessary to make the sale.

o) Premises and equipment

Premises and equipment are stated at cost less accumulated depreciation and any impairment in value. Depreciation is charged on a straight-line basis over the estimated useful lives of all premises and equipment, other than freehold land and capital work-in-progress.

- Computer hardware	3 to 5 years
- Computer software	3 to 5 years
- Furniture and office equipment	3 to 5 years
- Motor vehicle	4 to 5 years
- Leasehold improvements	Over the lease year

The assets residual values and useful lives are reviewed and adjusted, if appropriate, at each reporting date.

p) Subsidiaries acquired with a view to sell

A subsidiary acquired with a view to subsequent disposal within twelve months is classified as "held-for-sale" when the sale is highly probable. Related assets and liabilities of the subsidiary are shown separately on the consolidated statement of financial position as "assets held-for-sale" and "liabilities relating to assets classified as held-for-sale" respectively. Assets that are classified as held-for-sale are measured at the lower of carrying amount and fair value less costs to sell. Any resulting impairment loss reduces the carrying amount of the assets. Assets that are classified as held-for-sale are not depreciated.

q) Goodwill

In a business combination in which the Bank and the acquiree exchange only equity interests, the acquisition-date fair value of the acquiree's equity interests is used to determine the amount of goodwill. After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment at least annually. Any impairment is recognised immediately in the consolidated income statement. Goodwill is allocated to each of the Group's cash-generating units (CGU) that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Impairment exists when carrying value of an asset or CGU exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use.

Impairment of goodwill is determined by assessing the recoverable amount of the CGU (or group of CGUs), to which the goodwill relates. Where the recoverable amount of the CGU (or group of CGUs) is less than the carrying amount, an impairment loss is recognised immediately in the consolidated income statement.

2 ACCOUNTING POLICIES (continued)

2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)

q) Goodwill (continued)

For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's CGU, or groups of CGUs, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units. Each unit or group of units to which the goodwill is allocated:

- represents the lowest level within the Group at which the goodwill is monitored for internal management purposes; and
- is / are not larger than a segment based on either the Group's primary or the Group's geographic segment reporting format.

r) Offsetting

Financial assets and financial liabilities can only be offset with the net amount being reported in the consolidated statement of financial position when there is a religious or legally enforceable right to set off the recognised amounts and the Group intends to either settle on a net basis or intends to realise the asset and settle the liability simultaneously.

s) Customers' current accounts

Customers' current accounts balances are in non-investment accounts and are recognised when received by the Bank. The transaction is measured at the cash equivalent amount received by the Bank at the time of contracting. At the end of the accounting year, the accounts are measured at their book value, which represents the settlement value to the customers.

t) Equity of investment accountholders

Equity of investment accountholders ("IAH") are funds held by the Group in one common pool of unrestricted investment account, which is invested by the Group's ('Mudarib') in its own discretion. These include funds raised under Mudaraba contracts and Wakala contracts under multi-level investment arrangements. The funds received under the Wakala arrangement is invested in the Mudaraba investment pool and is considered as investment made by an investment account holder. Under both the Mudaraba and a comingled Wakala arrangement, the investment accountholder authorizes the Group to invest the accountholder's funds in a manner which the Group deems appropriate without laying down any restrictions as to the purpose the funds should be invested. The Group charges management fee (Mudarib fees) to investment accountholders. The allocation of income is determined by the management of the Group within the allowed profit sharing limits as per the terms agreed with IAH. Administrative expenses incurred in connection with the management of the fund are borne directly by the Group and are not charged to investment accounts. Only profits earned on pool of assets funded from IAH are allocated between the owners' equity and IAH. All equity of investment accountholders are carried at cost plus profit and related reserves less amounts settled.

The basis applied by the Group in arriving at the equity of investment accountholder's share of income is total investment income less shareholders' income. In case of Wakala contracts, the Bank does not act as both an investment agent and Mudarib of the same fund at one time. Therefore, in case of comingling of Wakala investment funds with the Mudaraba pool, the investment agent will only charge Wakala Fee and will not share profits from the Mudaraba investment pool in the capacity of Mudarib.

Under FAS 30, ECL is allocated to the assets invested using funds from unrestricted investment accounts.

u) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) arising from a past event and the costs to settle the obligation are both probable and able to be reliably measured.

v) Employees' end-of-service benefits

Short term benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A provision is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Notes to the Consolidated Financial Statements (continued)

31 December 2021

2 ACCOUNTING POLICIES (continued)

2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)

v) Employees' end-of-service benefits (continued)

Post employment benefits

Pensions and other social benefits for Bahraini employees are covered by the Social Insurance Organisation scheme, which is a "defined contribution scheme" in nature, and to which employees and employers contribute monthly on a fixed-percentage of salaries basis. Contributions by the Bank are recognised as an expense in income statement when they are due.

Eligible employees on fixed contracts are entitled to leaving indemnities payable under the Bahraini Labour Law, based on length of service and final remuneration. Provision for this unfunded commitment has been made by calculating the notional liability had all employees left at the reporting date.

w) Revenue recognition

Financing assets

As the income is quantifiable and contractually determined at the commencement of the contract, income is recognised on effective yield basis over the contract term. Recognition of income is suspended when the Group believes that the recovery of these amounts may be doubtful or when the payments of installments are overdue by 90 days, whichever is earlier.

Sukuk

Income on Sukuk is recognised on a time-proportionate basis based on underlying rate of return of the respective type of Sukuk.

Dividend

Dividend income is recognised when the Group's right to receive the dividend is established.

Finance lease assets

Finance lease income is recognised on a time-proportionate basis over the lease term. Income related to non-performing finance lease is suspended. Accrual of income is suspended when the Group believes that the recovery of these amounts may be doubtful or normally when the rental payments are overdue by 90 days, whichever is earlier.

Fees and commission income

The Group earns fee and commission income from a diverse range of services it provides to its customers. Fee income can be divided into the following main categories:

- Fee income on financing transactions: Fee earned on financing transactions including up-front fees and early settlement fees are recognised when earned. To the extent the fees are deemed yield enhancement they are recognised over the year of the financing contracts.
- Fee income from transaction services: Fee arising from corporate finance, corporate advisory, arranging the sale of assets and wealth management are recognised when earned or on a time proportionate basis when the fee is linked to delivery of services over the term of the contract.
- Other fee income: This is recognised when services are rendered.

x) Fair value of financial assets

For investments that are actively traded in organised financial markets, fair value is determined by reference to the prevailing market bid price on the reporting date.

For investments where there is no quoted market price, a reasonable estimate of fair value is determined by reference to valuation by independent external valuers or based on recent arm's length market transactions. Alternatively, the estimate would also be based on current market value of another contract, which is substantially the same, or is based on the assessment of future cash flows. The cash equivalent values are determined by the Group by calculating the present value of future cash flows at current profit rates for contracts with similar terms and risk characteristics.

For assets having fixed or determinable payments, fair value is based on available active broker quotes or the net present value of estimated future cash flows determined by the Group using current market profit rates for contracts with similar terms and risk characteristics.

2 ACCOUNTING POLICIES (continued)

2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)

y) Fiduciary assets

Assets held in a fiduciary capacity are not treated as assets of the Group and are accordingly not included in the consolidated statement of financial position. These include assets under management and custodial assets.

z) Dividend on ordinary shares

Dividend payable on ordinary issued and fully paid shares of the Bank is recognised as a liability and deducted from equity when it is approved by the Group's shareholders.

aa) Financial guarantees

Financial guarantees are contracts that require the Group to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the terms of a debt instrument. A financial guarantee contract is recognised from the date of its issue. The liability arising from a financial guarantee contract is recognised at the present value of any expected payment, when a payment under the guarantee has become probable.

ab) Treasury shares

Own equity contracts that are re-acquired, are recognised at cost and deducted from equity. No gain or loss is recognised in consolidated income statement on the purchase, sale, issue or cancellation of the Bank's own equity contracts. Any difference between the carrying amount and the consideration, if re-issued, is recognised in share premium in consolidated statement of changes in equity.

ac) Zakah

Zakah is calculated on the Zakah base of the Group in accordance with FAS 9 Zakah using the net assets method. Zakah is calculated based on the eligible reserve and retained earnings balances at the end of the year. The Bank calculates and notifies the shareholders of their pro-rata share of the Zakah payable annually. The calculation of Zakah is approved by the Sharia'a Supervisory Board. Payment of Zakah on the unrestricted investment and other accounts is the responsibility of the investment accountholders.

ad) Repossessed assets

In certain circumstances, properties are repossessed following the foreclosure of financial facilities that are in default. Repossessed properties that are held for immediate sale, are measured at the lower of the carrying value on closure and fair value less cost to sell. Other repossessed properties are classified as investment property.

ae) Earnings prohibited by Shari'a

The Group is committed to contributing to charity any income generated from non-Shari'a sources. Accordingly, any earning prohibited by Shari'a is credited to charity funds to be used for social welfare purposes.

2.6 STANDARDS ISSUED AND EFFECTIVE

Adoption of new standards in current year

FAS 32 Ijarah

AAOIFI has issued FAS 32 "Ijarah" in 2020. This standard supersedes the existing FAS 8 "Ijarah and Ijarah Muntahia Bittamleek".

The objective of this standard is set out principles for the classification, recognition, measurement, presentation and disclosure for Ijarah (asset Ijarah, including different forms of Ijarah Muntahia Bittamleek) transactions entered into by the Islamic Financial Institutions as a lessor and lessee. This new standard aims to address the issues faced by the Islamic finance industry in relation to accounting and financial reporting as well as to improve the existing treatments in line with the global practices. This standard shall be effective for the financial periods beginning on or after 1 January 2021 with early adoption permitted.

The group recognizes a right of use asset and a lease liability at the lease commencement date. The right -of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

Notes to the Consolidated Financial Statements (continued)

31 December 2021

2 ACCOUNTING POLICIES (continued)

2.6 STANDARDS ISSUED AND EFFECTIVE (continued)

Adoption of new standards in current year (continued)

The right-of-use asset is subsequently depreciated using the straight line method from the commencement date to the earlier of the end of the useful life of the right of use asset or the end of the lease term. The estimated useful lives of right of use assets are determined on the same basis as property and equipment. In addition, the right of use of asset is periodically reduced by impairment losses, if any and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the profit rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental financing rate. Generally, the Group uses its incremental financing rate as the discount rate.

The lease liability is measured at amortized cost using the effective profit rate method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount to be expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option.

When a lease liability is measured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in income statement if the carrying amount of the right-of-use asset has been reduced to zero.

Short term leases and leases of low value assets

The Group has elected not to recognize the right-of-use assets and lease liabilities for short term leases that have a lease term of less than 12 months and lease of low value assets, including IT equipment. The Group recognizes the lease payments associated with these assets as an expense on a straight line basis over the lease term.

Accounting policy prior to 1 January 2021

Assets held under lease were classified as operating leases and were not recognized in the Group's consolidated statement of financial position. Payments under operating leases were recognized in the consolidated income statement over straight line method over the term of the lease.

Impact on transition

As permitted by FAS1, the Bank has adopted a modified retrospective application of FAS 32 where the cumulative effect of adoption of the standard is reflected in opening retained earnings and consolidated statement of financial position of the current period.

The right of use asset and lease liability amounting to BD 2,094 thousands and BD 2,036 thousands arising on initial adoption of the FAS 32 standard has been classified under Other Assets (note 14) and Other Liabilities (note 17) respectively and the Day 1 impact on adoption of BD 57 thousands has been taken to retained earnings.

2.7 NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE

The following new standards and amendments to standards are effective for financial years beginning after 1 January 2022 with an option to early adopt. However, the Group has not early adopted any of these standards.

1) FAS 38 Wa'ad, Khiyar and Tahawwut

AAOIFI has issued FAS 38 Wa'ad, Khiyar and Tahawwut in 2020. The objective of this standard is to prescribe the accounting and reporting principles for recognition, measurement and disclosures in relation to shariah compliant Wa'ad (promise), Khiyar (option) and Tahawwut (hedging) arrangements for Islamic financial institutions. This standard is effective for the financial reporting periods beginning on or after 1 January 2022 with an option to early adopt.

This standard classifies Wa'ad and Khiyar arrangements into two categories as follows:

- a) "ancillary Wa'ad or Khiyar" which is related to a structure of transaction carried out using other products i.e. Murabaha, Ijarah Muntahia Bittamleek, etc.; and
- b) "product Wa'ad and Khiyar" which is used as a stand-alone Shariah compliant arrangement.

2 ACCOUNTING POLICIES (continued)

2.7 NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE (continued)

1) FAS 38 Wa'ad, Khiyar and Tahawwut (continued)

Further, the standard prescribes accounting for constructive obligations and constructive rights arising from the stand-alone Wa'ad and Khiyar products and accounting for Tahawwut (hedging) arrangements based on a series of Wa'ad and Khiyar contracts.

The Group does not expect any significant impact on adoption this standard.

2) FAS 39 Financial Reporting for Zakah

AAOIFI has issued FAS 39 Financial Reporting for Zakah in 2021. The objective of this standard is to establish principles of financial reporting related to Zakah attributable to different stakeholders of an Islamic financial Institution. This standard supersedes FAS 9 Zakah and is effective for the financial reporting periods beginning on or after 1 January 2023 with an option to early adopt.

This standard shall apply to institution with regard to the recognition, presentation and disclosure of Zakah attributable to relevant stakeholders. While computation of Zakah shall be applicable individually to each institution within the Group, this standard shall be applicable on all consolidated and separate / standalone financial statements of an institution.

This standard does not prescribe the method for determining the Zakah base and measuring Zakah due for a period. An institution shall refer to relevant authoritative guidance for determination of Zakah base and to measure Zakah due for the period. (for example: AAOIFI Shari'a standard 35 Zakah, regulatory requirements or guidance from Shari'a supervisory board, as applicable).

The Group is assessing the impact of adoption of this standard.

3) FAS 1 General Presentation and Disclosures in the Financial Statements

AAOIFI has issued the revised FAS 1 General Presentation and Disclosures in the Financial Statements in 2021. This standard describes and improves the overall presentation and disclosure requirements prescribed in line with the global best practices and supersedes the earlier FAS 1. It is applicable to all the Islamic Financial Institutions and other institutions following AAOIFI FAS's. This standard is effective for the financial reporting periods beginning on or after 1 January 2023 with an option to early adopt.

The revision of FAS 1 is in line with the modifications made to the AAOIFI conceptual framework for financial reporting.

Some of the significant revisions to the standard are as follows:

- a) Revised conceptual framework is now integral part of the AAOIFI FAS's;
- b) Definition of Quasi equity is introduced;
- c) Definitions have been modified and improved;
- d) Concept of comprehensive income has been introduced;
- e) Institutions other than Banking institutions are allowed to classify assets and liabilities as current and non-current;
- f) Disclosure of Zakah and Charity have been relocated to the notes;
- g) True and fair override has been introduced;
- h) Treatment for change in accounting policies, change in estimates and correction of errors has been introduced;
- i) Disclosures of related parties, subsequent events and going concern have been improved;
- j) Improvement in reporting for foreign currency, segment reporting;
- k) Presentation and disclosure requirements have been divided into three parts. First part is applicable to all institutions, second part is applicable only to banks and similar IFI's and third part prescribes the authoritative status, effective date an amendments to other AAOIFI FAS's; and
- l) The illustrative financial statements are not part of this standard and will be issued separately.

The Group is assessing the impact of adoption of this standard and expects changes in certain presentation and disclosures in its consolidated financial statements.

	747,534	34,880	32,035	814,449

Murabaha financing is reported net of deferred profits of BD 29,007 thousands (2020: BD 41,687 thousands).

8 FINANCE LEASE ASSETS

This represents net investment in assets leased (land and buildings) under a finance lease arrangement with customers of the Bank. Lease documentations states that the lessor undertakes to transfer the leased assets to the lessee at the end of the lease term upon the lessee fulfilling all the obligations under the lease agreement.

	2021 BD '000	2020 BD '000
Finance lease assets	565,383	476,137
Allowance for impairment	(9,474)	(6,774)
At 31 December	555,909	469,363

Movements in finance lease assets are as follows:

	2021 BD '000	2020 BD '000
At 1 January	469,363	389,742
Additions during the year - net	170,163	141,285
Finance lease assets amortisation	(32,109)	(40,994)
Allowance for impairment during the year, net	(2,700)	(2,332)
Settlements/adjustments during the year	(48,808)	(18,338)
At 31 December	555,909	469,363

The future minimum lease receivable (excluding future profits) in aggregate are as follows:

	2021 BD '000	2020 BD '000
Due within one year	54,045	59,939
Due in one to five years	129,023	154,565
Due after five years	372,841	254,859
	555,909	469,363

The accumulated depreciation / amortisation on finance lease assets amounted to BD 75,914 thousands (2020: BD 54,988 thousands).

10 NON-TRADING INVESTMENTS

	2021 BD '000	2020 BD '000
At fair value through profit or loss:		
Equity securities	90,939	94,371
Funds	302	3,313
At fair value through equity	350	350
Balance at the end of the year	91,591	98,034

The Group has 40% stake (2020: 40%) in Manara Developments Company B.S.C.(c) ("Manara") & Bareeq Al Retaj Real Estate Services WLL ("Bareeq"), incorporated in Bahrain and engaged in the business of property development. The investments are being fair valued through income statement using the fair value scope exemption of FAS 24. As part of restructuring, net assets of Manara will be novated to Bareeq, which is pending legal formalities.

11 INVESTMENT PROPERTIES

	2021 BD '000	2020 BD '000
Land	57,351	64,466
Buildings	610	3,120
	57,961	67,586

11 INVESTMENT PROPERTIES (continued)

The movements in investment properties classified in Level 3 of the fair value hierarchy are as follows:

	Fair value measurement using significant unobservable inputs Level 3	
	2021 BD '000	2020 BD '000
At 1 January	67,586	72,774
Fair value changes through income statement	(109)	(1,991)
Additions during the year*	2,669	902
Disposals during the year	(12,136)	(4,033)
Others	(49)	(66)
At 31 December	57,961	67,586

* Additions of investment properties during the year resulted from the Bank obtaining possession of properties held as collateral against financing.

The fair value of the investment properties are derived based on the valuations carried out by independent external valuers using adjusted comparable method.

For sensitivity analysis of the investment properties, an increase or decrease of 5% in value of properties will impact income statement in either scenario by BD 2,898 thousands.

12 DEVELOPMENT PROPERTIES

Development properties represent properties acquired and held through investment vehicles exclusively for development and sale in the United Kingdom. The carrying amount include land price and related construction costs.

13 INVESTMENT IN ASSOCIATES

The Group has a 14.42% (2020: 14.42%) stake in Al Salam Bank Algeria ("ASBA"), an Islamic commercial bank incorporated in Algeria. The Bank has representation on the board of ASBA through which the Bank exercises significant influence on ASBA.

The Group has a 20.94% (2020: 20.94%) stake in Gulf African Bank ("GAB"), an Islamic commercial bank incorporated as the first Islamic bank in Kenya on August 2006, licensed by the Central Bank of Kenya.

The Group's profit in ASBA and GAB is accounted for using the equity method in the consolidated financial statements.

The following table illustrates summarised financial information of Group's investments in ASBA:

	2021 BD '000	2020 BD '000
Associates' statement of financial position:		
Total assets	631,468	463,738
Total liabilities	571,119	409,843
Net assets	60,349	53,895
Total revenue	25,082	21,960
Total expenses	15,914	13,208
Net profit for the year	9,168	8,752
Group's share of associates' net profit	2,178	1,823

Notes to the Consolidated Financial Statements (continued)

31 December 2021

13 INVESTMENT IN ASSOCIATES (continued)

The following table illustrates summarised financial information of Group's investments in GAB:

	2021 BD '000	2020 BD '000
Associates' statement of financial position:		
Total assets	124,734	129,946
Total liabilities	106,490	112,664
Net assets	18,244	17,282
Total revenue	9,815	9,867
Total expenses	8,326	8,586
Net profit for the year	1,489	1,281
Group's share of associates' net profit	519	130

14 OTHER ASSETS

	2021 BD '000	2020 BD '000
Assets under conversion (a)

Allowance for credit losses (note 9)	(17)	(145)	(3,602)	(3,764)
	1,789	340	4,305	6,434

15 GOODWILL

In 30 March 2014, the Bank acquired 100% of the paid-up capital of BMI. Goodwill of BD 25,971 thousands (2020: BD 25,971 thousands) arose from the business combination and is associated with the banking segment of the Group.

The recoverable amount of goodwill is based on value-in-use, calculated through cash flow projections from financial forecasts approved by the Board of Directors extrapolated for three years projection to arrive at the terminal value. A steady growth rate of 1% and discount rate of 14.4% is applied to the estimated cash flows.

The bank assesses, on annual basis, whether there is an indication, based on either internal or external source of information, that the goodwill may be impaired in accordance to IAS 36 ('impairment of non-financial assets'). As of 31 December 2021, there are no indication of impairment of the CGU associated with the goodwill.

A sensitivity analysis was conducted to assess the impact of recoverable amount as compared to the carrying value of the CGU. Two variable factors are considered in the analysis, an increase of discount rate by 1% and a reduction of earnings by 0.5%, the recoverable amount is greater than the carrying value of goodwill in the sensitivity analysis and did not result in any impairment.

16 MURABAHA TERM FINANCING

These represent short-term to long-term financings obtained from various financial institutions and are collateralised by corporate and sovereign sukuk with total carrying value BD 132,162 thousands (2020: BD 275,338 thousands). The rates on these facilities range from 1.09% to 2.50% (2020: 1.32% to 3.9%).

Notes to the Consolidated Financial Statements (continued)

31 December 2021

17 OTHER LIABILITIES

	2021 BD '000	2020 BD '000
Accounts payable and accruals	46,529	48,767
Dividends payable	-	1,139
Project payables	69	69
End of service benefits and other employee related accruals	2,088	1,524
Allowance for credit losses relating to financing commitments and financial guarantee contracts	622	783
Liabilities held- for- sale	4,481	-
	53,789	52,282

18 EQUITY OF INVESTMENT ACCOUNTHOLDERS

Equity of investment accountholders comprise:

	2021 BD '000	2020 BD '000
Wakala from financial institutions	299,607	264,784
Wakala from customers	888,906	714,465
	1,188,513	979,249
Mudaraba from customers	435,664	246,131
	1,624,177	1,225,380

The Group utilizes the funds from EIAH to finance assets.

The assets in which EIAH funds are invested are as follows:

	2021 BD '000	2020 BD '000
Asset		
Mandatory reserve with Central Bank	35,378	24,848
Cash and other balances with Central Bank	154,025	82,286
Placements with financial institutions	133,866	38,106
Financing assets	777,991	757,718
Finance lease assets	522,917	322,422
	1,624,177	1,225,380

Equity of investment accountholder's fund is commingled with Group's Mudaraba and Wakala funds to form one general mudaraba pool. The pooled fund are used to fund and invest in income generating assets, however no priority is granted to any party for the purpose of investments and distribution of profits.

The Group does not allocate non-performing assets to EIAH pool. All the impairment allowances are allocated to owners' equity. Recoveries from non-performing financial assets are also not allocated to IAH accountholders. Only the profits earned on pool of assets funded from IAH are allocated between the owners' equity and IAH. As per the policy of the Group, minimum of 15% of return on assets earned is distributed to investment accountholders and up to 85% is retained by the Group as Mudarib share. During the year, the Bank has sacrificed portion of its share of Mudarib, in order to maintain a competitive profit distribution to the EIAH. The Group did not charge any administration expenses to investment account holders. The average profit rate attributed to the equity of investment accountholders based on the above ratio for the year ended 31 December 2021 was 2.46% (2020: 2.83%).

19 SHARE CAPITAL

	2021 BD '000	2020 BD '000
Authorised: 2,500,000,000 ordinary shares (2020: 2,500,000,000 shares) of BD 0.100 each	250,000	250,000
Issued and fully paid: (BD 0.100 per share) Number of shares 2,419,722,746 (2020: 2,304,497,853)	241,972	230,450

Total number of treasury shares outstanding as of 31 December 2021 was 146,300,000 shares (2020: 81,304,080 shares).

Names and nationalities of the major shareholders and the number of equity shares held in which they have an profit of 5% or more of outstanding share as of 31 December 2021 is as follows:

Investor Name	Nationality	No. of Shares	% of the outstanding shares
Bank Muscat (S.A.O.G.)	Omani	356,578,525	14.74
Sayacorp B.S.C (c)	Bahraini	151,883,594	6.28
Overseas Investment S.P.C.	Bahraini	145,542,249	6.01

A distribution schedule of equity shares, setting out the number of holders and the percentages as of 31 December 2021 is presented below:

Categories	No. of Shares	No. of the shareholders	% of the outstanding shares
Less than 1%	942,020,389	22,598	38.93
1% up to less than 5%	677,397,989	10	27.99
5% up to less than 10%	443,725,843	3	18.34
10% up to less than 20%	356,578,525	1	14.74
Total	2,419,722,746	22,612	100

19.1 Appropriation

The Board of Directors proposed a cash dividend of 4 fils per share or 4% (2020: Nil) of the par value of BD 0.100 per share excluding treasury shares and 3% of the paid up capital to be paid by issue of bonus shares (1 share for every 33.3 shares held). This amounts to BD 16,353 thousands (2020: BD 11,523 thousands).

19.2 This represents partial transfer of share premium and statutory reserves balances to retained earnings in order to offset accumulated losses.

20 STATUTORY RESERVE

As required by Bahrain Commercial Companies Law and the Bank's articles of association, 10% of the net profit for the year has been transferred to the statutory reserve. The Group may resolve to discontinue such annual transfers when the reserve totals 50% of the paid up share capital of the Bank. The reserve is not distributable except in such circumstances as stipulated in the Commercial Companies Law and approval of the CBB. Refer note 19.2 on utilisation of statutory reserve.

21 BASIC AND DILUTED EARNINGS PER SHARE

Basic earnings per share (EPS) is calculated by dividing the net profit for the year attributable to shareholders of the Bank by the weighted average number of ordinary shares outstanding during the year. There were no dilutive instruments issued by the Group.

	2021	2020
Net profit attributable to Shareholders of the Bank (BD '000)	21,367	9,142
Weighted average number of shares (thousands)	2,346,812	2,337,096
Basic and diluted earnings per share (fils)	9.1	3.9

Assets position	57,163	619	27,584	299
Liabilities position	19,488	402	9,404	194

31 RISK MANAGEMENT

31.1 Introduction

Risk is inherent in the Group's activities but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk appetite limits and other controls. This process of risk management is critical to the Group's continuing profitability and each individual within the Group is accountable for the risk exposures relating to his or her responsibilities. The Group is exposed to credit risk, liquidity risk, operational risk, information security risk and market risk. It is also subject to early settlement risk.

The Group's risk function is independent of lines of business and the Chief Risk Officer reports to the Audit and Risk Committee with access to the Group Chief Executive Officer.

The independent risk control process does not include business risks such as changes in the environment, technology and industry as they are monitored through the Group's strategic planning process.

Board of Directors

The Board of Directors is responsible for setting the overall risk management framework and appetite encompassing the risk strategies and policies.

Shari'a Supervisory Board

The Group's Shari'a Supervisory Board is entrusted with the responsibility to ensure the Group's adherence to Shari'a rules and principles in its transactions and activities.

Credit Risk Committee

Risk Committee exercises its authority to review and approve proposals within its delegated limits. The Committee recommends the risk policies and framework to the Board. The Committee has a primary role in selection and implementation of risk management systems, portfolio monitoring, stress testing, risk reporting to the Board, Board Committees, Regulators and Executive Management. The Committee discharges its authority after adequate due diligence.

Asset and Liability Committee

The Asset and Liability Committee (ALCO) establishes policy and objectives for the asset and liability management of the Group's financial position in terms of ICAAP, Stress Testing, Step-in Risk, Recovery Plan, Risk and Return and its impact on profitability. It also monitors the cash flow, tenor and cost / yield profiles of assets and liabilities and evaluates the Group's financial position both from profit rate sensitivity and liquidity points of view, making corrective adjustments based upon perceived trends and market conditions, monitoring liquidity, monitoring foreign exchange exposures and positions.

Operational Risk Committee

The Operational Risk Committee establishes the Bank's Operational Risk Policies which must be consistent with the corporate values and strategy of the Bank. The Committee shall be responsible for the design, implementation and supervision of the Operational Risk framework of the Bank.

31 RISK MANAGEMENT (continued)

31.1 Introduction (continued)

Information Security Committee

Information Security Committee is an advisory committee appointed by the Management Executive Committee of the Bank to develop, review and execute a comprehensive Information Security Management System for the Bank. The Committee will regularly review the information security risk exposure of the Bank.

Audit and Risk Committee

The Audit and Risk Committee is appointed by the Board of Directors who are non-executive directors of the Group. The Audit and Risk Committee assists the Board in carrying out its responsibilities with respect to assessing the quality and integrity of financial reporting, the audit thereof, the soundness of the internal controls of the Group, reviewing and monitoring the overall risk framework and profile of the Group as well as its adherence to stipulated policies and limits, and the methods for monitoring compliance with laws, regulations and supervisory and internal policies.

The Audit and Risk Committee reviews Group's accounting and financial practices, risk management reports, integrity of the Group's financial and internal controls and consolidated financial statements. It also reviews the Group's compliance with legal requirements, recommends the appointment, compensation and oversight of the Group's external and internal auditors. The Committee has the responsibility to review and recommend to the Board for approval the overall risk process and policies within the Bank.

Internal Audit

Risk management processes throughout the Group are audited by the internal audit function that examines both the adequacy of the procedures and the Group's compliance with the procedures. Internal Audit discusses the results of all assessments with management, and reports its findings and recommendations to the Audit and Risk Committee.

Risk measurement and reporting systems

The Group's risk management policies aim to identify, measure, analyse and manage the risks faced by the Group, to set appropriate risk limits and controls, and to continuously monitor risk levels and adherence to limits. The Group's risk management department is also responsible for identifying risk characteristics inherent in new and existing products, activities and setting exposure limits to mitigate these risks.

Monitoring and controlling risks is primarily performed based on limits established by the Group. These limits reflect the business strategy and market environment of the Group as well as the level of risk that the Group is willing to accept, with additional emphasis on selected industries. In addition, the Group monitors and measures the overall risk bearing capacity in relation to the aggregate risk exposure across respective risk types and activities.

Information compiled from all the businesses is examined and processed in order to analyse, control and identify early risks. This information is presented and explained to the Board of Directors, the Audit and Risk Committee, Risk Management Committee, Operational Risk Management Committee, Information Security Committee and ALCO, whenever required. The reports include aggregate credit quality and exposures, market risk exposures, operational risk metrics, Information Security updates, limit exceptions, liquidity ratios, stress testing, and risk profile changes. A detailed report is produced on a quarterly basis with simplified reports produced on a monthly basis. Senior management assesses the appropriateness of the allowance for credit losses on a quarterly basis. The Board of Directors receives a comprehensive risk report once a quarter which is designed to provide all the necessary information to assess the risks of the Group.

For all levels throughout the Group, specifically tailored risk reports are prepared and distributed in order to ensure that all business divisions have access to extensive, necessary and up-to-date information. Briefing is given to all relevant members of the Group on the utilization of market limits, proprietary investments and liquidity, plus any other risk developments.

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Group's performance to developments affecting a particular industry or geographical location.

In order to avoid excessive concentrations of risk, the Group's policies and procedures include specific guidelines to focus on maintaining a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly.

Notes to the Consolidated Financial Statements (continued)

31 December 2021

31 RISK MANAGEMENT (continued)

31.2 Credit risk

Credit risk is the risk that one party to a financial contract will fail to discharge an obligation and cause the other party to incur a financial loss. The Group attempts to control credit risk by monitoring credit exposures, setting limits for transactions with counterparties, and continually assessing the creditworthiness of counterparties.

In addition to monitoring credit limits, the Group manages the credit exposures by entering into collateral arrangements with counterparties in appropriate circumstances and by limiting the duration of the exposure.

Maximum exposure to credit risk without taking account of any collateral and other credit enhancements

Credit risk grades

The Group allocates each exposure to a credit risk grade based on a variety of data that is determined to be predictive of the risk of default and applying experienced credit judgment. Credit risk grades are defined using qualitative and quantitative factors that are indicative of risk of default. These factors vary depending on the nature of the exposure and the type of customer. Credit risk grades are defined and calibrated such that the risk of default occurring increases exponentially as the credit risk deteriorates. Each exposure is allocated to a credit risk grade at initial recognition based on available information about the customer. Exposures are subject to ongoing monitoring which may result in an exposure being moved to a different credit risk grade.

The table below shows the maximum exposure to credit risk for the components of the consolidated statement of financial position. The maximum exposure is shown net of provision, before the effect of mitigation through the use of master netting and collateral agreements.

	Gross maximum exposure 2021 BD '000	Gross maximum exposure 2020 BD '000
ASSETS		
Balances with other banks	194,313	181,132
Placements with financial institutions	133,860	37,965
Corporate Sukuk	26,285	16,395
Financing assets and finance lease assets	1,362,877	1,283,812
Non-trading investments-debt	-	8
Financing contracts under other assets	3,749	6,434
Total	1,721,084	1,525,746
Contingent liabilities and commitments	187,991	107,985
Total credit risk exposure	1,909,075	1,633,731

Where financial contracts are recorded at fair value the amounts shown above represent the current credit risk exposure but not the maximum risk exposure that could arise in the future as a result of changes in values.

Type of credit risk

Various contracts entered into by the Group comprise Murabaha financing, Mudaraba financing, Musharaka, Credit card receivables, Corporate Sukuk and finance lease contracts. Murabaha contracts cover financing of land, buildings, commodities, motor vehicles and others non-financial assets. Mudaraba financing consist of financing transactions entered through other Islamic banks and financial institutions. Mudaraba is a partnership agreement in which the Islamic bank acts as the provider of funds (the Rabalmal) while the recipient of the funds (the Mudarib or the manager) provides the professional, managerial and technical know-how towards carrying out the venture, trade or service with an aim of earning profit.

The Group follows an internal rating mechanism for grading relationships for financial assets. All financial assets are assigned a rating in accordance with the defined criteria. The Group utilises a scale ranging from 1 to 10 for credit relationships, with 1 to 7 denoting performing grades and 8 to 10 denoting non-performing grades. Ratings 1 to 4 represent good credit grade, 5 to 7 represents a satisfactory credit grade and 8 to 10 represents default grade.

For externally rated exposures, credit risk ratings of an authorised Credit Rating Agency such as S&P, etc, are converted into internal ratings which are calibrated with the risk appetite of the Bank. Conversion of an external credit risk rating to an internal risk rating is done to ensure consistency across publicly rated and unrated entities.

31 RISK MANAGEMENT (continued)

31.2 Credit risk (continued)

The Group endeavors continuously to improve upon the internal credit risk rating methodologies and credit risk management policies and practices to reflect the true underlying credit risk of the portfolio and the credit culture in the Group.

The uncertainties due to COVID-19 and resultant economic volatility has impacted the Group's financing operations and is expected to affect most of the customers and sectors to some degree. Although it is difficult to assess at this stage the degree of impact faced by each sector, the main industries impacted are hospitality, tourism, leisure, airlines/transportation and retailers. In addition, some other industries are expected to be indirectly impacted such as contracting, real estate and wholesale trading. Though the oil prices reflected an increasing trend in 2021, it was volatile seeing drops at irregular intervals, the same continued to have a regional impact due to its contribution to regional economies.

Considering this evolving situation, the Group has taken preemptive measures to mitigate credit risk by adopting more cautious approach for credit approvals thereby tightening the criteria for extending credit to impacted sectors. Payment holidays have been extended to customers, including private and SME sector, in line with the instructions of CBB. These measures may lead to lower disbursement of financing facilities, resulting in lower net financing income and decrease of other revenue.

The risk management department has also enhanced its monitoring of financing portfolio by reviewing the performance of exposures to sectors expected to be directly or indirectly impacted by COVID-19 to identify potential SICR on a qualitative basis.

Measurement of ECL

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive). ECLs are discounted at the effective profit rate of the financial asset.

The key parameters into the measurement of ECL are the following variables:

- Probability of Default (PD);
- Loss Given Default (LGD); and
- Exposure At Default (EAD).

These parameters are generally derived from internally developed models, historical and projected data. These are further adjusted to reflect forward-looking scenarios as described below.

Definition of default

The Group considers a financial asset to be in default when the customer is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as liquidating collateral; or the customer is past due more than 90 days on any credit obligation to the Group. In assessing whether a customer is in default, the Group considers both qualitative factors such as breaches of covenants and quantitative factors such as overdue status and non-payment on another obligation of the same issuer to the Group.

Probability of default

PDs estimates are estimated at a certain date, which are calculated based on the Bank's default experience, and assessed using rating tools tailored to the segment of counterparties and exposures. These estimations are based on internally compiled data comprising both quantitative and qualitative factors. In case of lack of default history, market data may also be used to derive the PD for selected segment of counterparties. If a counterparty or exposure migrates between rating classes, then this will lead to a change in the estimate of the associated PD.

Generating the term structure PD

Credit risk grades are a primary parameters into the determination of the term structure of PD for exposures. The Group collects performance and default information about its credit risk exposures analysed by credit risk grading for corporate and days-past-due for retail portfolio. The Group employs credit risk estimation models for analysing the data collected and generate estimates of PD of exposures and how these are expected to change as a result of the passage of time.

Incorporation of forward - looking information

The Group uses industry recognized models to estimate impact of macro-economic factors on historical observed default rates. In case the results of forecasted PDs are significantly different from the expected default rates that may be observed for the forecasted economic conditions, conservative and discretionary overlays shall be used by the management after analyzing the portfolio and impact. The key macro-economic indicators include gross domestic product (GDP) growth and oil prices.

Notes to the Consolidated Financial Statements (continued)

31 December 2021

31 RISK MANAGEMENT (continued)

31.2 Credit risk (continued)

Incorporation of forward - looking information (continued)

Incorporating forward-looking information requires continuous assessment as to how changes in these macroeconomic factors will affect the ECL applicable to the stage 1 and stage 2 exposures which are considered as performing (Stage 3 are the exposures under default category). The methodologies and assumptions involved, including any forecasts of future economic conditions, are reviewed yearly.

Loss Given Default

LGD is the magnitude of the likely loss if there is a default. The Group estimates LGD parameters based on the history of recovery rates of claims against defaulted counterparties, based on historical data using both internal and external factors. The LGD is estimated using below factors:

Cure Rate: Defined as the ratio of accounts which have fallen to default and have managed to move backward to the performing accounts.

Recovery Rate: Defined as the ratio of liquidation value to market value of the underlying collateral at the time of default would also account for expected recovery rate from a general claim on the individual's assets for the unsecured portion of the exposure.

In case of non-availability of recovery data, the Bank uses LGD estimate based on market practice.

Discounting Rate: Defined as the opportunity cost of the recovery value not being realized on the day of default adjusted for time value. Where the Group does not have stable or adequate internal loss or recovery experience, an expert judgement measure using market benchmarks as inputs is considered.

Exposure At Default

EAD represents the expected exposure in the event of a default. The Group derives the EAD from the current exposure to the counterparty. The EAD of a financial asset is its gross carrying amount. For financing commitments and financial guarantees, the EAD includes the amount drawn, as well as potential future amounts that may be drawn under the contract, which are estimated based on historical observations and forward-looking forecasts.

Significant Increase in Credit Risk

A SICR occurs when there has been a significant increase in the risk of a default occurring over the expected life of a financial instrument. In the measurement of ECL, judgement is involved in setting the rules and trigger points to determine whether there has been a SICR since initial recognition of a financing facility, which would result in the financial asset moving from 'stage 1' to 'stage 2'.

When determining whether the risk of default on financial contracts has increased significantly since initial recognition, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and expert credit assessment including forward-looking information.

The criteria for determining whether credit risk has increased significantly vary on a portfolio level and include quantitative and qualitative factors, including days past due, restructured status and relative migration in risk rating. Credit risk grades are defined and calibrated such that the risk of default occurring increases exponentially as the credit risk grade deteriorates so, for example, the difference in risk of default between credit risk grades 1 and 2 is smaller than the difference between credit risk grades 4 and 5.

The Group continues to assess customer for other indicators of unlikelihood to pay, taking into consideration the underlying cause of any financial difficulty and whether it is likely to be temporary as a result of Covid-19 or longer term.

During the year, in accordance with CBB instructions the Group has granted payment holidays to its eligible/impacted customers by deferring up to twelve months instalments. These deferrals are considered as market-wide short-term liquidity relief to address customer cash flow issues and not necessarily indicative of deterioration in credit risk. The Group believes that the extension of these payment reliefs does not automatically trigger a SICR and a stage migration for the purposes of calculating ECL, as these are being made available to assist customer affected by the Covid-19 outbreak to resume regular payments. At this stage sufficient information is not available to enable the Group to individually differentiate between a customers' short-term liquidity constraints and a change in its lifetime credit risk. However, the Group has made risk based assessments on the affected portfolio to determine a range of possible outcomes for its ECL determination process.

Management overlays are applied to the model outputs if consistent with the objective of identifying a significant increase in credit risk.

31 RISK MANAGEMENT (continued)

31.2 Credit risk (continued)

Renegotiated financial assets

The contractual terms of a financing may be modified for a number of reasons including changing market conditions, and other factors not related to the current or potential credit deterioration of a customer. When the terms of a financial asset are modified and the modification does not result in a derecognition, the determination of whether the asset's credit risk has increased significantly reflects a comparison of its remaining lifetime PD at the reporting date based on modified terms, with the remaining lifetime PD estimated based on data at initial recognition and the original contractual terms.

The Group renegotiates financing to customers in financial difficulties to maximize collection opportunities and minimize the risk of default. This may involve extending the payment arrangements and documenting the agreement of new conditions for providing finance. Management continuously reviews renegotiated facilities to ensure that all criteria are met and that future payments are likely to occur.

The accounts which are performing prior to restructuring but restructured due to financial difficulty are categorised under stage 2. The accounts that are non-performing or meet any criteria for classifying as non-performing (prior to restructuring), then such restructured accounts are categorized under stage 3.

The Group believes that the extension of payment holidays due to COVID-19 related concessionary measures of CBB does not automatically trigger a SICR and a stage migration for the purposes of calculating ECL.

Backward transition

FAS 30 staging model is of symmetrical nature as exposures may migrate from lifetime ECL measurement (Stage 2 and Stage 3) to 12 month ECL measurement (Stage 1). However, movement across stages are not immediate once SICR indicators are no longer triggered. Once such indicators are no longer triggered, movement back to Stage 1 or Stage 2 has to be calibrated and cannot be automatic or immediate. Certain criteria like cooling off year, SICR indicators and payment history are considered for migrating customers to Stage 2 or Stage 1.

Credit Conversion Factor

The estimation of EAD takes into account any unexpected changes in the exposure after the assessment date, including expected drawdowns on committed facilities through the application of a credit conversion factor (CCF). The EAD is estimated using the outstanding exposure adjusted by CCF times for undrawn portion of the facilities.

The outstanding exposure is calculated as principal plus profit less expected prepayments. The undrawn portion refers to the portion of the unutilized credit limit. CCF applied to the facilities would be the higher of average behavioral utilization over the last five years or the CCF considered for capital charge.

The Bank applies regulatory CCF as defined by the Central Bank of Bahrain.

Expected credit Losses

The economic uncertainties caused by COVID-19, have required the Group to update the inputs and assumptions used for the determination of expected credit losses ("ECLs") as at 31 December 2021. ECLs were estimated based on a range of forecast economic conditions as at that date and considering that the situation is fast evolving, the Group has considered the impact of higher volatility in the forward-looking macro-economic factors, when determining the severity and likelihood of economic scenarios for ECL determination.

The following table summarizes the key judgements and assumptions in relation to the model inputs and the interdependencies between those inputs during the current year.

Key model inputs	Model assumptions
Probability of default (PD's)	Point-in-time PD's updated using latest available macro-economic forecasts by using historical correlation to Gross domestic product, Oil price, Unemployment rate, Gross national savings Percent of GDP, Inflation and Volume of exports of goods and services.
Probability weighted outcomes	Probability weights - Base 65, Stressed 25, Improved 10
Loss Given Default (LGD)	Unsecured LGD 65% collateral haircuts are consistent with those used in 2020 and these were stressed by 10% when compared to 2019.

Notes to the Consolidated Financial Statements (continued)

31 December 2021

31 RISK MANAGEMENT (continued)

31.2 Credit risk (continued)

Expected credit Losses (continued)

The Group has also stressed financing exposures with regards to specific industries which are expected to be most impacted due to Covid-19 and considered for ECL in its probability weighted scenarios. However, the staging of these exposures reported in the tables below reflect their account position on the reporting date. The Group continues to individually assess significant corporate exposures to adequately safeguard against any adverse movements due to Covid-19.

The Group has previously performed historical analysis and identified key economic variables impacting credit risk and ECL for each portfolio and expert judgement has also been applied in this process. These economic variables and their associated impact on PD, EAD and LGD vary by financial instrument.

Judgement is involved in determining which forward looking information variables are relevant for particular financing portfolios and for determining the sensitivity of the parameters to movements in these forward-looking variables. As with any economic forecasts, the projections and likelihoods of the occurrence are subject to a high degree of inherent uncertainty and therefore the actual outcomes may be significantly different to those projected.

Any changes made to ECL to estimate the overall impact of COVID-19 is subject to very high levels of uncertainty as limited forward-looking information is currently available on which to base those changes. The judgements and associated assumptions have been made within the context of the impact of COVID-19 and reflect historical experience and other factors that are relevant, including expectations of future events that are believed to be reasonable under the circumstances. In relation to COVID-19, judgements and assumptions include the extent and duration of the pandemic, the impacts of actions of governments and other authorities, and the responses of businesses and consumers in different sectors, along with the associated impact on the global economy. Accordingly, the Group's ECL estimates are inherently uncertain and, as a result, actual results may differ from these estimates.

a) The credit quality of balances with banks and placements with financial institutions subject to credit risk is as follows:

	2021			
	Stage 1: 12-month ECL BD '000	Stage 2: Lifetime ECL not credit-impaired BD '000	Stage 3: Lifetime ECL credit-impaired BD '000	Total BD '000
Good (R1-R4)	230,380	-	-	230,380

31.2 Credit risk (continued)

The aging analysis of Financing Assets:

	2021			
	Stage 1 BD '000	Stage 2 BD '000	Stage 3 BD '000	Total BD '000
Current	1,262,354	73,462	1,938	1,337,754
< 30 days	36,336	542	-	36,878
30 to 90 Days	3,343	1,879	111	5,333
> 90 days	-	-	28,052	28,052
	1,302,033	75,883	30,101	1,408,017

	2020			
	Stage 1 BD '000	Stage 2 BD '000	Stage 3 BD '000	Total BD '000
Current	1,161,275	59,306	31,029	1,251,610
< 30 days	22,195	546	43	22,784
30 to 90 Days	21,710	1,606	9	23,325
> 90 days	-	-	36,322	36,322
	1,205,180	61,458	67,403	1,334,041

The maximum credit risk, without taking into account the fair value of any collateral and Shari'a-compliant netting agreements, is limited to the amounts on the consolidated statement of financial position plus commitments to customers disclosed in note 29 except capital commitments.

During the year BD 41,889 thousands (2020: BD 46,896 thousands) of financing facilities were renegotiated. Most of the renegotiated facilities are performing and are secured.

Write-off policy

The Group writes off an asset/security balance (net of any related allowances for impairment losses) when it determines that the asset/security are uncollectible. This determination is reached after considering information such as the occurrence of significant changes in the counterparty's financial position such that they can no longer pay the obligation, or that proceeds from collateral will not be sufficient to pay back the entire exposure. During the year, the Group has written off financing facilities amounting to BD 11,961 thousands (2020: BD 3,239 thousands) which were fully impaired.

Collateral held and other credit enhancements

The Group accepts the following type of collateral, as defined in CBB rule book. The collateral can be in Bahraini Dinars or other Foreign Currencies-in such cases, haircut as appropriate as per the credit risk policy shall be effected.

- Cash Margin and deposits
- Sukuk-Long Term – rated & unrated
- Equities listed and not listed in main index
- Units in collective investment schemes
- Other physical assets including real estate

Notes to the Consolidated Financial Statements (continued)

31 December 2021

31 RISK MANAGEMENT (continued)

31.2 Credit risk (continued)

The Group holds collateral and other credit enhancements against certain of its credit exposures. The following table sets out the principal types of collateral held against different types of financial assets.

Type of credit exposure	Principal type of collateral held	2021	2020
		BD '000	BD '000
Financing assets to corporates	Cash, Property, Shares and Sukuk	986,300	864,158
Financing assets to retail customers	Cash, Property, Shares and Sukuk	785,478	624,657

FTV ratio

Financing to value (FTV) is calculated as the ratio of the gross amount of the financing or the amount committed for financing commitments to the value of the collateral. The valuation of the collateral excludes any adjustments for obtaining and selling the collateral.

	2021	2020
	BD '000	BD '000
Less than 50%	615,849	605,305
51-70%	165,835	161,212
71-90%	217,989	205,527
91-100%	114,812	96,049
More than 100%	289,361	262,476
	1,403,846	1,330,569

Key drivers of credit risk and credit losses

Credit risk arises from all transactions that give rise to actual, contingent or potential claims against any counterparty, obligor or client (which is referred to collectively as "counterparties"). This is the most frequent and substantial risk faced by any financing Bank.

Credit risk may have the following consequences leading to credit losses:

- Delayed fulfilment of a payment obligation
- Partial loss of the credit exposure
- Complete loss of the credit exposure

The various types of credit risk are defined as follows:

- Default Risk
- Country Risk
- Settlement Risk
- Replacement cost-risk
- Concentration risk
- Residual risk (e.g. legal risk, documentation risk, or liquidity risk)

The Group has identified and documented key drivers of credit risk and credit losses for each portfolio of financial instruments and, using an analysis of historical data, has estimated relationships between macro-economic variables and credit risk and credit losses. The economic scenarios used included the key indicators for Bahrain such as the oil price, net financing, population, GDP growth and government expenditure.

31.3 Legal risk and claims

Legal risk is the risk arising from the potential that unenforceable contracts, lawsuits or adverse judgments can disrupt or otherwise negatively affect the operations of the Group. The Group has developed controls and procedures to identify legal risks and believes that losses will be minimised.

As at 31 December 2021, legal suits amounting to BD 3,203 thousands (2020: BD 2,379 thousands) were pending against the Group. Based on the opinion of the Group's legal counsel, the total estimated liability arising from these cases is not considered to be material to the Group's consolidated financial position as the Group has also filed counter cases against these parties.

31 RISK MANAGEMENT (continued)

31.4 Operational risk management

In response to COVID 19 outbreak, there were various changes in the working model, interaction with customers, customer acquisition and executing contracts and carrying out transactions with and on behalf of the customers. The management of the Group has enhanced its monitoring to identify potential risk events arising out of the current situation and the changes in the way business is conducted. The operational risk department has also enhanced its monitoring processes to identify operational risks in the revised working pattern.

The BCP was thoroughly tested during the year, including the implemented measures like working from the BCP site and from home. The measures continued to work satisfactorily.

As of 31 December 2021, the Group did not have any significant issues relating to operational risks.

32 CONCENTRATIONS

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Group's performance to developments affecting a particular industry or geographic location. The Group manages its exposure through diversification of financing activities to avoid undue concentrations of risks with customers in specific locations or businesses.

The distribution of assets, liabilities and equity of investment account holders by geographic region and industry sector was as follows:

	2021			2020		
	Assets BD '000	Liabilities and equity of investment account holders BD '000	Contingent liabilities and Commitments BD '000	Assets BD '000	Liabilities, and equity of investment account holders BD '000	Contingent liabilities and Commitments BD '000

Notes to the Consolidated Financial Statements (continued)

31 December 2021

33 MARKET RISK

Market risk arises from fluctuations in global yields on financial contracts and foreign exchange rates that could have an indirect effect on the Group's assets value and equity prices. The Board has set limits on the risk that may be accepted. This is monitored on a regular basis by the Audit and Risk Committee as well as ALCO of the Group.

33.1 Equity price risk

Equity price risk arises from fluctuations in equity prices. The Board has set limits on the overall investment exposure of the Bank. This is monitored on an ongoing basis by the Group's Investment Committee and Risk Management.

The effect on income (as a result of changes in the fair values of non-trading investments held at fair value through profit or loss and fair value through equity investments) solely due to reasonably possible changes in equity prices, is as follows:

	2021			
	10% increase		10% decrease	
	Effect on net profit BD '000	Effect on equity BD '000	Effect on net profit BD '000	Effect on equity BD '000
Quoted:	412	-	(412)	-

	2020			
	10% increase		10% decrease	
	Effect on net profit BD '000	Effect on equity BD '000	Effect on net profit BD '000	Effect on equity BD '000
Quoted:	416	-	(416)	-

33.2 Profit return risk

Profit rate risk arises from the possibility that changes in profit rates will affect the future profitability or the fair values of financial assets. The Board has set limits on the risk that may be accepted. This is monitored on a regular basis by the Audit and Risk Committee as well as ALCO of the Group.

The Group manages exposures to the effects of various risks associated with fluctuations in the prevailing levels of market profit rates on its financial position and cash flows.

The effect on income solely due to reasonably possible immediate and sustained changes in profit return rates, affecting both floating rate assets and liabilities and fixed rate assets and liabilities with maturities less than one year are as follows:

	2021			
	Change in rate %	Effect on net profit BD '000	Change in rate %	Effect on net profit BD '000
	Bahraini dinars	0.10	560	(0.10)
US dollars	0.10	466	(0.10)	(466)

	2020			
	Change in rate %	Effect on net profit BD '000	Change in rate %	Effect on net profit BD '000
	Bahraini dinars	0.10	447	(0.10)
US dollars	0.10	242	(0.10)	242

33 MARKET RISK (continued)

Profit rate benchmark reform (PBOR)

LIBOR is a benchmark rate at which banks estimate they can provide funding facilities to other banks on an unsecured basis. LIBOR was published for five different currencies and for seven different maturities. After 2021 it will not be mandatory for banks to participate in publishing LIBOR as per the Financial Conduct Authority, regulator of LIBOR. Alternatively, a new benchmarks will be published which will be a risk free rate for various currencies and will be monitored by the respective currencies regulators. The Group has contracts which are at variable profit rates based on LIBOR. The Group has assessed the impact of transition on systems and processes and is in the process of upgrading its infrastructure to address the requirement. Further, the group will follow the recommendation of Alternative Reference Rate Committee, The Central Bank, ISDA, IIFM to adopt new conventions for profit rate accrual for new exposures and or legacy contracts in line with the market practice. The group is in the process of transitioning legacy contracts following the recommended cessation spread adjustments to maintain economic equivalence and as per fallback language and or protocol as applicable.

33.3 Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Board has set limits on positions by currency. Positions are monitored on a yearly basis by the Audit and Risk Committee as well as ALCO to ensure positions are maintained within established limits.

Substantial portion of the Group's assets and liabilities are denominated in Bahraini Dinars, US Dollars or Saudi Riyals. As the Bahraini Dinar and Saudi Riyals are pegged to the US Dollars, positions in these currencies are not considered to represent significant currency risk as of 31 December 2021 and 2020.

The Group's net exposure for denominated in foreign currencies as at 31 December for its financial instruments are as follows:

	Long (short) 2021 BD '000	Long (short) 2020 BD '000
Sterling Pounds	(33)	4,051
Kenyan Shilings	-	109
Euro	(36,175)	(10,496)
Algerian Dinar	10,676	8,773
Others	199	(3,445)

Standard scenarios that are considered include a 10% increase or decrease in exchange rates other than GCC pegged currencies. An analysis of the Group's sensitivity to an increase or decrease in foreign exchange rates (assuming all other variables primarily profit rates, remain constant) is as follows:

	Change in currency rate %	Effect on profit 2021 BD '000	Effect on equity 2021 BD '000	Change in currency rate %	Effect on profit 2020 BD '000	Effect on equity 2020 BD '000
Sterling Pounds	10	(3)	-	10	405	-
Kenyan Shilings	10	-	-	10	11	-
Euro	10	(3,618)	-	10	(1,050)	-
Algerian Dinar	10	-	1,068	10	-	877
Others	10	20	-	10	(345)	-
Total		(3,601)	1,068		(979)	877

34 LIQUIDITY RISK

Liquidity risk is the risk that the Group will be unable to meet its liabilities as they fall due. Liquidity risk can be caused by market disruptions or credit downgrades which may impact certain sources of funding. To mitigate this risk, management has diversified funding sources and assets are managed with liquidity in mind, maintaining an adequate balance of cash, cash equivalents and readily convertible marketable securities. Liquidity position is monitored on an ongoing basis by the Risk and Audit Committee as well as ALCO of the Group.

Notes to the Consolidated Financial Statements (continued)

31 December 2021

34 LIQUIDITY RISK (continued)

The Bank has computed the Liquidity Coverage Ratio (LCR) and the Net Stable Funding Ratio (NSFR) as per the requirements of the CBB rulebook. The LCR at the Group level as at 31 December 2021 is 322.93% and the simple average of the daily consolidated LCRs of the last three months is 343.93%. The NSFR as at 31 December 2021 is 117.75%.

The CBB announced various measures to combat the effects of COVID-19 on the banking sector in the Kingdom of Bahrain. These were aimed to ease liquidity in the economy as well as to assist banks in complying with regulatory requirements. These measures included the following:

- Reduction of cash reserve ratio from 5% to 3%.
- Reduction of LCR and NSFR from 100% to 80%.

The maturity profile of sovereign and corporate sukuk, placements with or from financial institutions, financing assets, finance lease assets and murabaha term financing has been presented using the contractual maturity year. For other balances, maturity profile is based on expected cash flows / settlement profile of the respective assets and liabilities.

The management of the Group has enhanced its monitoring of the liquidity and funding requirements. ALCO meetings are convened more frequently in order to carryout granular assessment of funding requirements with the objective to explore available sources of funding and to drawdown the existing funding sources as and when necessary to maintain enough liquidity at a reasonable cost of funding.

As at the reporting date the liquidity and funding position of the Group remains strong and is well placed to absorb and manage the impacts of this disruption. Further information on the regulatory liquidity and capital ratios as at 31 December 2021 have been disclosed in Note 43 to the consolidated financial statement.

35 SEGMENT INFORMATION

Primary segment information

For management purposes, the Group is organised into three major business segments:

Banking	Principally managing Shari'a compliant profit sharing investment accounts, and offering Shari'a compliant financing contracts and other Shari'a-compliant products. This segment comprises corporate banking, retail banking, private banking and wealth management.
Treasury	Principally handling Shari'a compliant money market, trading and treasury services including short-term commodity Murabaha.
Investments	Principally the Group's proprietary portfolio and serving clients with a range of investment products, funds and alternative investments.

Transactions between segments are conducted at estimated allocated internal rates. Transfer charges are based on a pool rate which approximates the cost of funds.

Segment information is disclosed as follows:

	2021				Total BD '000
	Banking BD '000	Treasury BD '000	Investments BD '000	Unallocated BD '000	
Net operating income	55,414	11,229	(2,399)	-	64,244
Segment result	16,823	8,763	(4,362)	-	21,224
Segment assets	1,419,859	1,075,488	185,799	3,425	2,684,571
Segment liabilities, and equity	1,899,701	480,239	7,617	297,014	2,684,571

Goodwill resulting from BMI acquisition is allocated to banking segment.

	2020				Total BD '000
	Banking BD '000	Treasury BD '000	Investments BD '000	Unallocated BD '000	
Net operating income	55,661	10,726	(8,967)	-	57,420
Segment result	12,473	7,764	(11,119)	-	9,118
Segment assets	1,338,978	727,651	192,012	2,712	2,261,353
Segment liabilities, and equity	1,311,031	660,947	7,469	281,906	2,261,353

Goodwill resulting from BMI acquisition is allocated to banking segment.

35 SEGMENT INFORMATION (continued)

Secondary segment information

The Group primarily operates in the GCC and derives substantially all its operating income and incurs all operating expenses in the GCC.

36 FIDUCIARY ASSETS

Funds under management at the yearend amounted to BD 141,004 thousands (2020: BD 158,458 thousands). These assets are held in a fiduciary capacity, measured at remaining subscription amounts and are not included in the consolidated statement of financial position. Further, the Group through its SPV's, acts as an agent/custodian on behalf of certain clients to facilitate transactions as per terms and instructions from their customers.

37 SHARI'A SUPERVISORY BOARD

The Bank's Shari'a Supervisory Board ("SSB") consists of four Islamic scholars who review the Bank's compliance with general Shari'a rules and principles, specific fatwas and rulings issued by SSB and the guidelines of the Central Bank of Bahrain ("CBB") in relation to Shari'a governance and compliance. Their review includes examination and approval of products, documentation, procedure manuals and policies, services and related charges and fees that are presented to it to ensure that the Bank's adopted activities are conducted in accordance with Shari'a rules and principles, and consequently, issue report on the bank's compliance following the review and approval of the financial statements.

38 EARNINGS AND EXPENSES PROHIBITED BY SHARI'A

During the year, the Group earned Shari'a prohibited income totalling BD 291 thousands (2020: BD 209 thousands). These include income earned from the conventional financing and investments due to acquiring BMI, ASBS and BSB, penalty charges from customers and interest on balances held with correspondent banks. These funds were allocated to charitable contributions.

39 SOCIAL RESPONSIBILITY

The Group discharges its social responsibility through charity fund expenditures and donations to individuals and organisations which are used for charitable purposes. During the year, the Group paid an amount of BD 554 thousands (2020: 920 thousands) out of which BD 271 thousands (2020: BD 745 thousands) was paid from Sharia prohibited income pool.

40 ZAKAH

Pursuant to a resolution of the shareholders in an Extra-ordinary General Meetings (EGM) held on 12 November 2009, it was resolved to amend the articles of association of the Bank to inform the shareholders of their obligation to pay Zakah on income and net worth. Consequently, Zakah is not recognised in the consolidated income statement as an expense. The total Zakah payable by the shareholders for 2021 has been determined by the Shari'a supervisory board as 2.6 fils (2020: 2.3 fils) per share. Under FAS 9, Zakah payable for the year ended 2021 was calculated at 2.577% of the Zakah base of BD 233,146 thousands (2020: BD 187,369 thousands) which was determined on the Net Invested Funds method.

41 FAIR VALUE HIERARCHY

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;

Level 2: other techniques for which all inputs that have a significant effect on the recorded fair value are observable, either directly or indirectly; or

Level 3: techniques that use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

Notes to the Consolidated Financial Statements (continued)

31 December 2021

41 FAIR VALUE HIERARCHY (continued)

Financial instruments measured at fair value

The following table shows an analysis of the non-trading investments and sukuk portfolio carried at fair value in the consolidated statement of financial position:

	Level 1 BD '000	Level 2 BD '000	Level 3 BD '000	Total BD '000
31 December 2021				
Sovereign Sukuk	455,723	157,680	-	613,403
Corporate Sukuk	14,132	379	11,774	26,285
Financial assets at fair value through profit or loss	4,116	302	86,823	91,241
Financial assets at fair value through equity	-	-	350	350
	473,971	158,361	98,947	731,279
	Level 1 BD '000	Level 2 BD '000	Level 3 BD '000	Total BD '000
31 December 2020				
Sovereign Sukuk	67,704	325,404	-	393,108
Corporate Sukuk	1,866	3,978	10,551	16,395
Financial assets at fair value through profit or loss	4,162	3,313	90,209	97,684
Financial assets at fair value through equity	-	-	350	350
	73,732	332,695	101,110	507,537

The movements in fair value of non-trading investments classified in Level 3 of the fair value hierarchy are as follows:

	2021 BD '000	2020 BD '000
At 1 January	90,559	98,933
Fair value changes	(3,386)	(10,434)
Repayments	-	(231)
Additions	-	2,291
At end of the year	87,173	90,559

The sensitivity analysis for Level 3 of non-trading investments are summarized below:

Valuation technique used	Key unobservable inputs	Fair value at 31 December 2021 BD'000	Reasonable possible shift +/- (in average input)	Increase / (decrease) in valuation
Asset Valuation	Underlying real estate	1,17,065	+/- 5%	5,853 / (5,853)
Discounted Cash Flow	Occupancy and Discount rate	15,109	+/- 5% and +/-1%	1,095 / (1,197)

The movements in fair value of sukuk portfolio classified in Level 3 of the fair value hierarchy are as follows:

	2021 BD '000	2020 BD '000
At 1 January	10,551	11,320
Additions	10,994	13,411
Fair value changes	-	(3,426)
Disposals	(9,771)	(10,754)
At end of the year	11,774	10,551

The estimated fair value of yielding financing assets and financing liabilities approximates their carrying value as their pricing is not materially different to expected market return on such contracts.

The estimated fair values of other financial assets are not expected to be materially different from their carrying values as of 31 December 2021 and 31 December 2020 due to their short term nature.

42 DEPOSIT PROTECTION SCHEME

Certain customers' deposits of the Bank are covered by deposit protection schemes established by the CBB. Customers' deposits held with the Bank in the Kingdom of Bahrain are covered by the Regulation Protecting Deposits and Equity of unrestricted investment accounts issued by the CBB in accordance with Resolution No.(34) of 2010. This scheme covers eligible 'natural persons' (individuals) up to a maximum of BD 20,000 as set out by CBB requirements. A yearly contribution as mandated by the CBB is paid by the Bank under this scheme.

43 REGULATORY RATIOS

1) Liquidity Coverage Ratio (LCR)

LCR has been developed to promote short-term resilience of a bank's liquidity risk profile. The LCR requirements aim to ensure that a bank has an adequate stock of unencumbered high quality liquidity assets (HQLA) that consists of assets that can be converted into cash immediately to meet its liquidity needs for a 30 calendar day stressed liquidity year. The stock of unencumbered HQLA should enable the Bank to survive until day 30 of the stress scenario, by which time appropriate corrective actions would have been taken by management to find the necessary solutions to the liquidity crisis.

LCR is computed as a ratio of Stock of HQLA over the Net cash outflows. The average Consolidated LCR for three months calculated as per the requirements of the CBB rulebook, as of 31 December 2021 and 31 December 2020, is as follows:

	Total weighted value	
	2021 BD '000	2020 BD '000
Stock of HQLA	5,79,523	1,95,494
Net cashflows	1,80,147	1,57,730
LCR %	343.93%	126.41%
Minimum required by CBB	80%	80%

2) Capital Adequacy Ratio

The primary objectives of the Group's capital management policies are to ensure that the Group complies with externally imposed capital requirements and that the Group maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholders' value. Capital adequacy for each of the group companies is also managed separately at individual company level. The Group does not have any significant restrictions on its ability to access or use its assets and settle its liabilities other than any restrictions that may result from the supervisory frameworks within which the banking subsidiaries operate.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividend payment to shareholders or issue capital securities. No changes were made in the objectives, policies and processes from the previous years.

Notes to the Consolidated Financial Statements (continued)

31 December 2021

43 REGULATORY RATIOS (continued)

2) Capital Adequacy Ratio (continued)

The regulatory capital and risk-weighted assets have been calculated in accordance with Basel III as adopted by the CBB.

	As at	
	2021 BD '000	2020 BD '000
CET 1 Capital before regulatory adjustments	295,333	277,655
Less: regulatory adjustments	25,971	25,971
CET 1 Capital after regulatory adjustments	269,362	251,684
AT 1 Capital	36	26
T 2 Capital adjustments	34,596	35,745
Regulatory Capital	303,994	287,455
Risk weighted exposure:		
Credit Risk Weighted Assets	934,629	988,982
Market Risk Weighted Assets	27,314	250
Operational Risk Weighted Assets	103,250	97,200
Total Regulatory Risk Weighted Assets	1,065,193	1,086,432
Total Adjusted Risk Weighted Exposures	1,065,193	1,086,432
Capital Adequacy Ratio	28.54%	26.46%
Tier 1 Capital Adequacy Ratio	25.29%	23.17%
Minimum required by CBB	12.50%	12.50%

As of 31 December 2021, aggregate of modification loss of BD 24,768 thousands has been added back to Tier 1 capital.

As per CBB instructions, the above concessional treatment would be followed for two years ending 31 December 2020 and 31 December 2021, thereafter this amount will be proportionately deducted from Tier 1 capital for three years ending 31 December 2022, 31 December 2023 and 31 December 2024.

3) Net Stable Funding Ratio (NSFR)

The objective of the NSFR is to promote the resilience of banks' liquidity risk profiles and to incentivize a more resilient banking sector over a longer time horizon. The NSFR limits overreliance on short-term wholesale funding, encourages better assessment of funding risk across all on-balance sheet and off-balance sheet items, and promotes funding stability.

NSFR is calculated in accordance with the Liquidity Risk Management Module guidelines, issued by CBB and its effective from 2019. The minimum NSFR ratio as per CBB is 100%. However, as per CBB circular OG/106/2020 dated 17 March 2020, OG/296/2020 dated 26 August 2020 and OG/431/2020 dated 29 December 2020, the limit has been reduced to 80% until June 2022, to contain the financial repercussions of COVID-19.

43 REGULATORY RATIOS (continued)

3) Net Stable Funding Ratio (NSFR) (continued)

The NSFR (as a percentage) as at 31 December 2021 is calculated as follows:

BD'000	Unweighted Values (before applying relevant factors)				
	No specified maturity	Less than 6 months	More than 6 months and less than one year	Over one year	Total weighted value
Item					
Available Stable Funding (ASF):					
Capital:					
Regulatory Capital	272,744	-	-	34,596	307,340
Retail deposits and deposits from small business customers:					
Stable deposits	-	85,820	3,048	6,445	90,869
Less stable deposits	-	501,988	113,787	80,423	634,621
Wholesale funding:					
Other wholesale funding	-	1,322,106	149,710	56,041	522,229
Other liabilities:					
All other liabilities not included in the above categories	-	67,695	-	-	-
Total ASF	272,744	1,977,609	266,545	177,505	1,555,059
Required Stable Funding (RSF):					
Total NSFR high-quality liquid assets (HQLA)	-	-	-	-	29,612
Deposits held at other financial	-	-	-	-	-
Performing financing and sukuk/ securities:					
Performing financing to financial institutions secured by non-level 1 HQLA and unsecured performing financing to financial institutions	-	366,087	6,367	5,878	63,974
Performing financing to non-financial corporate clients, financing to retail and small business customers, and financing to sovereigns, central banks and PSEs, of which:	-	227,810	153,681	756,908	812,050

44 SUBSEQUENT EVENT

Subsequent to the balance sheet date, Al Salam Bank and Ithmaar Holding B.S.C. have agreed the acquisition by Al Salam Bank of the consumer banking business of Ithmaar Bank, and Ithmaar Holdings' ownership stake in both Bank of Bahrain and Kuwait B.S.C (BBK) and Solidarity Group Holding BSC (c) respectively. A memorandum of understanding between the two entities was executed in October 2021. The transaction remains subject to the approval of Ithmaar Holding's shareholders and the signing of definitive agreements.

45 COMPARATIVE FIGURES

Certain of the prior year figures have been regrouped to conform to the current year presentation. Such grouping did not affect previously reported net profit, total assets, total liabilities and total equity of the Group. FAS 32 has been adopted on a retrospective basis and comparatives have not been restated.

Unaudited Supplementary Disclosures

In line with the Central Bank of Bahrain's ("CBB") direction as per circular OG/417/2021 of 23 December 2021 which aims to maintain transparency amidst the current financial implications of Coronavirus (COVID-19) outbreak, the Bank has provided additional supplementary information on the impact of COVID 19 on its financial statements and the results of its operations.

On 11 March 2020, the COVID-19 outbreak was declared as a pandemic by the World Health Organization ("WHO") and has rapidly evolved globally. This has resulted in an economic slowdown with uncertainties in the economic environment across the globe. This includes disruption to capital markets, deteriorating credit markets and liquidity concerns. Authorities all over the world have taken various steps to contain the spread of COVID-19 including implementation of travel restrictions as well as lockdown and quarantine measures. The pandemic as well as the resulting measures have had a significant knock-on impact on Al Salam Bank and its principal subsidiaries (collectively the "Group") and its associates. The Group is actively monitoring the COVID-19 situation and in response to this outbreak, has activated its business continuity plan and various other risk management practices to manage the potential business disruption on its operations and financial performance.

The CBB announced various measures to combat the effects of COVID-19 on the banking sector in the Kingdom of Bahrain. These were aimed to ease liquidity in the economy as well as to assist banks in complying with regulatory requirements. These measures included the following:

- Reduction of cash reserve ratio from 5% to 3%.
- Reduction of liquidity coverage ratio ("LCR") and net stable funding ratio ("NSFR") from 100% to 80%.
- Capital relief by allowing the aggregate of modification loss and incremental expected credit losses ("ECL") from March to December 2020 to be added back to Tier 1 capital for the two financial years ending 31 December 2020 and 31 December 2021 and deducted proportionately from Tier 1 capital on an annual basis for three years ending 31 December 2022, 31 December 2023 and 31 December 2024.

The aforesaid measures have resulted in the following effects on the Group:

- The CBB mandated 6-month payment holidays requires impacted banks to recognize a one-off modification loss directly in equity. The modification loss has been calculated as difference between the net present value of the modified cash flows calculated using the original effective profit rate and the current carrying value of the financial assets on the date of the modification.
- The mandated 6-month payments holiday included the requirement to suspend minimum payments, service fees and outstanding credit card balances. In addition, COVID-19 also resulted in lower transaction volumes and related fees. This resulted in a significant decline in the Group's fee income.
- The Government of the Kingdom of Bahrain have announced various economic stimulus program ("packages") to support business in these challenging times. The Bank received regulatory directive financial assistance representing specified reimbursement of a portion of staff costs, waiver of fees, levies and utility charges as well as zero cost funding received from the Government and/or the regulators in response to its COVID-19 support measures. This has been recognized directly in the Group's equity as per the instructions of the CBB.
- The Group also maintained a lower cash reserve due to reduction in cash reserve ratio to 3%.
- Due to the stressed liquidity scenario in the market, the Bank also had to incur higher funding costs for sourcing new deposits and foreign exchange.

Subsequent to the first deferment, the CBB announced four further terms of deferment from September 2020 to June 2022, wherein the payments were deferred and the Bank was allowed to accrue the profits on deferred amounts. The same resulted in additional impact on Bank's liquidity and ECL provisions.

A summary of the financial impact of the above effects are as follows:

Amounts in BD '000	Net impact on the Group - Accumulated		
	Consolidated Income statement	Consolidated financial position	Consolidated Owners equity
Modification loss	–	–	(24,768)
Modification loss amortization	–	24,768	–
Lower Credit card fee	–	–	(282)
Government grants	–	–	2,143
Concessionary repo @ 0%	–	121,613	–
Average reduction of cash reserve	–	412,297	–
Stressed liquidity	–	–	(371)
ECL attributable to COVID -19	(2,423)	(9,053)	–

The Group continues to meet the regulatory requirement of capital adequacy ratio ("CAR"), LCR and NSFR. The consolidated CAR, LCR and NSFR as at 31 December 2021 stands at 28.54%, 322.93% and 117.75% respectively.

Information reported in the table above only include areas or line items where impact was quantifiable and material. Some of the amounts reported above include notional loss of income or an incremental cost measure and hence may not necessarily reconcile with amounts reported in the consolidated financial statements for the year ended 31 December 2021.

The information provided in this supplementary disclosure should not be considered as an indication for the results of the entire year or relied upon for any other purposes. Since the situation of COVID-19 is uncertain and is still evolving, the above assessment is as at the date of preparation of this information and only considers significant areas of impact. Circumstances may change which will result in this information being out of date. In addition, this information does not represent a full comprehensive assessment of COVID-19 impact on the Group. This information has not been subject to an audit by external auditors.

06

To ratify and approve the operations and transactions carried out by the Bank during the financial year ended 31 December 2021 with any related parties or major shareholders of the Bank, as presented in the notes (no. 28) to the consolidated financial statements.

07

To approve the recommendations of the Board of Directors with respect to the following appropriations of the net profit attributable to shareholders for the financial year ended 31 December 2021, amounting to BD 21.37 million, as follows:

- a. Transfer of BD 2.14 million to the statutory reserves.**
- b. Distribute a total dividend of 7% of the issued and paid-up share capital of the Bank, amounting to BD 16.38 million, for the financial year ended 31 December 2021, to the shareholders whose names are on the share register on 22 March 2022, as follows:**
 - 4% as cash dividends, amounting to BD 9.12 million, excluding treasury shares;**
 - 3% as bonus shares, equating to 72.592 million shares – i.e. (1 share for each 33.333 shares held).**

The dividends will be paid to the entitled shareholders on 5 April 2022, the last day of trading with entitlement to dividend is 20 March 2022 and the first day of trading without entitlement to dividend is 21 March 2022.

- c. Transfer of the remaining balance of BD 2.85 million to retained earnings account.**

08

To approve remuneration to the members of the Board of Directors amounting to BD 690 thousand, for the financial year ended 31st December 2021.

09

To receive and discuss the Bank's Corporate Governance Report for the financial year ended 31 December 2021, as required by the Central Bank of Bahrain and the Ministry of Industry, Commerce and Tourism.

Corporate Governance Report

Corporate Governance Practice

The Bank aspires to the highest standards of ethical conduct: doing what it says; reporting results with accuracy, transparency, and maintaining full compliance with the laws and regulations that govern the Bank's business. Since the introduction of the Corporate Governance Code in the Kingdom of Bahrain, the Bank has continuously implemented measures to enhance its compliance with the code.

Corporate Governance Report (continued)

Board Composition

The Board consists of members who possess both the required skills and expertise to govern the Bank in a manner that would achieve the objectives of all stakeholders. Furthermore, in compliance with relevant regulations, the Board Committees consist of Directors with adequate professional background and experience. The Board periodically reviews its composition, the contribution of Directors and the performance of its various Committees. The appointment of Directors is subject to prior screening by the Nomination and Corporate Governance Committee and the Board of Directors, as well as the approval of both the Shareholders and the Central Bank of Bahrain. The classification of "executive", "non-executive" and "independent" directors is as per the definitions stipulated in the Central Bank of Bahrain Rulebook.

Each Director is elected for a three-year term, after which he must present himself to the Annual General Meeting of shareholders for re-appointment. Board Meeting attendance is as per the regulations stipulated in the Central Bank of Bahrain Rulebook.

Mandate of the Board of Directors and their Roles and Responsibilities

The principal role of the Board is to oversee the implementation of the Bank's strategic initiatives in accordance with relevant statutory and regulatory structures. The Board is also responsible for the consolidated financial statements of the Group. The Board ensures the adequacy of financial and operational systems and internal controls, as well as the implementation of corporate ethics and the code of conduct. The Board has delegated the responsibility of the day-to-day management of the Bank to the Group Chief Executive Officer ("Group CEO").

The Board reserves a formal schedule of matters for its decision to ensure that the direction and control of the Bank rests with the Board. This includes:

- Reviewing the strategic plan of the Bank;
- Performance reviews of the Senior Management (all approved persons);
- Performance assessment of the Board, Board Sub-Committees and the Shari'a Supervisory Board;
- Approving material acquisition and disposal of assets;
- Approving capital expenditure;
- Approving authority levels;
- Appointing auditors and, reviewing the financial statements and financing activities;
- Reviewing the Corporate Governance Report
- Approving the annual operating plan and budget;
- Ensuring regulatory compliance through its various committees;
- Reviewing the adequacy and integrity of the internal controls; and
- Approving all policies pertaining to the Bank's operations and functioning.

Board Elections System

Article 25 of the Bank's Articles of Association provides the following:

1. The company shall be administered by a Board of Directors consisting of not less than five (5) members elected by the shareholders by means of cumulative voting by secret ballot and in accordance with the provisions of the Commercial Companies Law, after obtaining the approval of the Central Bank of Bahrain for their appointment. Members of the Board of Directors shall be appointed or elected to serve for a term not exceeding three (3) years renewable. A cumulative vote shall mean that each shareholder shall have a number of votes equal to the number of shares he owns in the Company and shall have the right to vote for one candidate or to distribute them among his chosen candidates.
2. Each shareholder owning 10% or more of the capital may appoint whoever represents him on the Board to the same percentage of the number of the Board members. His right to votes shall be forfeited for the percentage he has appointed representatives. If a percentage is left that does not qualify him to appoint another member, he may use such percentage to vote.

3. The Board of Directors shall elect, by secret ballot, a Chairman and one Vice Chairman or more, three years renewable. The Vice Chairman shall act for the Chairman during his absence or if there is any barrier preventing him. The Ministry of the Industry, Commerce and Tourism and the Central Bank of Bahrain shall be provided with a copy of the resolution electing the Chairman and the Deputy Chairman.
4. The Board of Directors shall consist of independent and non-executive members in accordance with the Central Bank of Bahrain's rules and regulations.
5. No person may be appointed or elected as a member of the Board of Directors until he has declared his acceptance to such nomination in writing, provided that the declaration includes the disclosures of any work performed that may directly or indirectly constitute competition for the company, names of the companies and entities in which he works in or in which he is a member of their board of directors.

Article 27 of the Bank's Articles of Association covers the "Termination of Membership in the Board of Directors" which states the following:

A Director shall lose his office on the Board in the event that he:

1. Fails to attend four consecutive meetings of the Board in one year without an acceptable excuse, and the Board of Directors decides to terminate his membership;
2. Resigns his office by virtue of a written request;
3. Forfeits any of the provisions set forth in Article 26 of the Articles of Association;
4. Is elected or appointed contrary to the provisions of the Law; and
5. Has abused his membership by performing acts that may constitute a competition with the Company or caused actual harm to the Company;
6. If he has been convicted before any court for theft, embezzlement, fraud, forgery or issuing dishonored cheques or any crime as provided in the law;
7. If he declares bankruptcy;
8. If any of the shareholders have terminated his appointment to any of their representatives on the Board of Directors or if the shareholders of the General Assembly vote for his removal in accordance with Article 42; or
9. If the Central Bank of Bahrain considers him not eligible for the position.

Independence of Directors

An independent Director is a Director whom the Board has specifically determined has no material relationship, which could affect his independence of judgment, taking into account all known facts. The Directors have disclosed their independence by signing the Directors Annual Declaration whereby they have declared that during the year ending 31st December 2021, they have met all the conditions required by the various regulatory authorities to be considered independent.

As of 31-12-2021, the members of the Board were:

Non-executive Members

H.E. Shaikh Khalid bin Mustahil Al Mashani	Chairman
Mr. Matar Mohamed Al Blooshi	Vice Chairman
Mr. Salman Saleh Al Mahmeed	Board Member
Mr. Hisham AlSaie	Board Member
Mr. Zayed Ali Al-Amin	Board Member

Corporate Governance Report (continued)

Independent Members

Mr. Salim Abdullah Al Awadi	Board Member
Mr. Alhur Mohammed Al Suwaidi	Board Member
Mr. Khalid Salem Al Halyan	Board Member
Mr. Tariq Abdulhafidh AlAujaili	Board Member

All current Directors were elected for a three-year term on 17 March 2021.

The Board Charter

The Board has adopted a Charter which provides the authority and practices for governance of the Bank. The Charter was approved by the Board with the beginning of its term in 2021 and includes general information on the composition of the Board of Directors', classification of Directors', Board related Committees, Board of Directors' roles and responsibilities, Board of Directors' code of conduct, Board remuneration and evaluation process, insider dealing, conflict of interest and other Board related information.

Conflict of Interest

The Bank has a documented procedure for dealing with situations involving "conflict of interest" of Directors. In the event of the Board or its Committees considering any issues involving "conflict of interest" of Directors, the decisions are taken by the full Board/ Committees. The concerned Director abstains from the discussion/ voting process. These events are recorded in Board/ Committees proceedings. The Directors are required to inform the entire Board of (potential) conflicts of interest in their activities with, and commitments to, other organizations as they arise and abstain from voting on the matter. This disclosure includes all material facts in the case of a contract or transaction involving the Director. A report detailing the absenteeism from voting relating to conflict of interest is made available to shareholders upon their request.

Induction and Orientation for New Directors

When new Directors are appointed, they shall be provided with an appointment letter and the Directors' Handbook containing information relevant to the performance of their duties as members of the Board. The Handbook includes the Corporate Governance Guidelines, Charters of the Board and Committees, key policies, etc. The Board reserves a formal schedule of matters for its decision to ensure that the direction and control of the Bank rests with the Board.

Code of Conduct

The Board has an approved Code of Conduct for Directors, as follows:

- To act with honesty, integrity and in good faith, with due diligence and care, in the best interest of the Bank and its stakeholders;
- To act only within the scope of their responsibilities;
- To have a proper understanding of the affairs of the Bank and to devote sufficient time to their responsibilities;
- To keep confidential Board discussions and deliberations;
- Not to make improper use of information gained through the position as a director;
- Not to take undue advantage of the position of director;
- To ensure his/her personal financial affairs will never cause reputational loss to the Bank;
- To maintain sufficient/detailed knowledge of the Bank's business and performance to make informed decisions;
- To be independent in judgment and actions and to take all reasonable steps to be satisfied as to the soundness of all decisions of the Board;
- To consider themselves as a representative of all Shareholders and act accordingly;

- Not to agree to the Bank incurring an obligation unless he/she believes at the time, on reasonable grounds, that the Bank will be able to discharge the obligations when it is required to do so;
- Not to agree to the business of the Bank being carried out or cause or allow the business to be carried out, in a manner likely to create a substantial risk of serious loss to the Bank's creditors;
- To treat fairly and with respect all of the Bank's employees and customers with whom they interact;
- Not to enter into competition with the Bank;
- Not to demand or accept substantial gifts from the Bank for himself/herself or his/her associates;
- Not to take advantage of business opportunities to which the Bank is entitled for himself/herself or his/her associates;
- Report to the Board any potential conflicts of interests; and
- Absent themselves from any discussions or decision-making that involves a subject in which they are incapable of providing objective advice or which involves a subject or proposed conflict of interest.

Evaluation of Board Performance

The Board has adopted a 'Performance Assessment Framework' designed to provide Directors with an opportunity to assess their performance on an annual basis. The self-assessment consists of three categories, such as:

- Assessment of the Board as a unit;
- Assessment of the Committee as a unit; and
- Self-assessment of individual Directors.

The results of the annual performance assessment shall be communicated to the Shareholders at the Annual General Meeting.

Remuneration of Directors

Remuneration of the Directors as provided by Article 34 of the Articles of Association states the following:

The General Assembly shall specify the remuneration of the members of the Board of Directors. However, such remunerations must not exceed in total 10% of the net profits after deducting the statutory reserve and the distribution of profits of not less than 5% of the paid capital among the shareholders. The General Assembly may decide to pay annual bonuses to the Chairman and members of the Board of Directors in the years when the Company does not make profits or in the years when it does not distribute profits to the shareholders, subject to the approval of the Minister of Industry, Commerce and Tourism. The report of the Board of Directors to the General Assembly shall include a full statement of the remuneration the members of the Board of Directors have been paid during the year in accordance with the provisions set forth in Article (188) of the Law.

As per the Directors Remuneration Policy approved by the Shareholders, the structure and level for the compensation for the Board of Directors consist of the following:

1. Annual remuneration subject to the annual financial performance of the Bank and as per the statutory limitation of the law.
2. The total amount payable to each Board member with respect to Board and Committee meetings attended during the year. The remuneration of the Board of Directors will be approved by the shareholders at the Annual General Meeting.

In addition to the above, Directors who are employees of the Bank shall not receive any compensation for their services as Directors and Directors who are not employees of the Bank may not enter into any consulting arrangements with the Bank without the prior approval of the Board. Directors who serve on the Audit and Risk Committee shall not directly or indirectly provide or receive compensation for providing accounting, consulting, legal, investment banking or financial advisory services to the Bank.

Corporate Governance Report (continued)

Board Meetings and Attendances

The Board of Directors meets at the summons of the Chairman or his Deputy (in the event of his absence or disability) or if requested to do so as per the Bank's Board Charter. According to the Bahrain Commercial Companies Law and the Bank's Articles of Association, the Board meets at least four times a year. A meeting of the Board of Directors shall be valid if attended by half of the members in person. During 2021, the Directors that were present at the Annual General Meeting are detailed in the minutes of the 2021 Annual General Meeting. The details of the Board meetings held during 2021 are as follows:

Board Meetings in 2021 - Minimum Four Meetings per Annum

Approval Process for Related Parties' Transactions

The Bank has a due process for dealing with transactions involving related parties. Any such transaction will require the unanimous approval of the Board of Directors. The nature and extent of transactions with related parties are disclosed in the consolidated financial statements under note 28 - related party transaction.

Material Transactions that require Board Approval

Depending on the internal risk rating transactions above BD 5 million and up to BD 15 million requires the approval of the Executive Committee of the Board of Directors, any transaction above BD 15 million requires the approval of the Board of Directors of the Bank. In addition, when acquiring 20% of a company Board approval is required regardless of the amount.

Material Contracts and Financing Involving Directors and Senior Management During 2021

The Bank's dealings with its directors/ associated entities are conducted on an arms-length basis and at prevailing commercial terms in respect of its exposure to and deposits received from them. All financing facilities to senior management members are governed by the policies applicable to staff, which are reviewed and approved by the Board Remuneration & Nomination Committee. Material contracts and financing facilities involving directors and senior management during 2021 are as follows:

- BD 1.6 million outstanding against Ali Rashid Al Amin Co. which is related to a director.
- Financing Facilities provided to certain Directors of the Board with total amount of BD 834 thousand.
- BD 712 thousand outstanding against Quality Wire Products Wll which is related to senior management.
- Financing facilities provided to senior management with total amount of BD766 thousand.

All related party transactions are disclosed in note 28 of the consolidated financial statements for the year ending 31st December2021.

Directorships held by Directors on Other Boards

The High-Level Controls Module of the Central Bank of Bahrain Rulebook provides that no Director should hold more than three directorships in Bahrain public companies. All members of the Board of Directors met this requirement and are approved by the Central Bank of Bahrain.

Board Committees

Consistent with the industry's best practice, the Board has established four Committees with defined roles and responsibilities. The Standing Committees of the Board are Executive Committee, Audit and Risk Committee, Remuneration Committee and, Nomination and Corporate Governance Committee.

Certain information relating to the work of certain Board Committees during the year 2021, summary of the dates of Committee meetings held, Directors' attendance and a summary of the main responsibilities of each Committee is enclosed in this report.

Corporate Governance Report (continued)

Executive Committee

The Committee operates under the delegated authority of the Board and provides direction to the executive management on business matters, as delegated by the Board, to address matters arising between the Board meetings. The Committee is responsible for reviewing business matters concerning credit and market risks, strategy review and providing recommendation to the Board.

Committee Meetings in 2021 - Minimum four meetings per annum.

Four Committee meetings were held during 2021 as follows:

Members	2 Feb	3 Jun	2 Sep	5 Dec
Mr. Matar Mohamed Al Blooshi (Chairman)	✓	✓	✓	✓
Mr. Hisham AlSaie	*	✓	✓	✓
Mr. Salim Abdullah Al Awadi	✓	✓	✓	✓

* Mr. Alhur Mohammed Al Suwaidi became a member of the committee as per the new Board Committee's composition dated 26 April 2021

Nomination and Corporate Governance Committee

The Committee's role is to evaluate and nominate candidates to the Board, as well as facilitate the assessment of the performance of the Board, Committees and individual Directors. In addition, the Committee is responsible to ensure that Directors receive adequate training during the year so as to be able to perform their duties on the Board and the Committees they serve on. The Committee is also charged with the responsibility of ensuring that the Corporate Governance Framework of the Bank is adequate and in compliance with the prevailing regulations. The Committee liaises with the Bank's Corporate Governance Officer to manage the governance related activities.

Committee Meetings in 2021 - Minimum two meetings per annum.

Two meetings were convened during 2021:

Members	2 Feb	2 Sep
Mr. Salim Abdullah Al Awadi (Chairman)	✓	✓
Mr. Matar Mohamed Al Blooshi	✓	✓
Mr. Tariq Abdulhafidh AlAujaili	*	✓
Mr. Alhur Mohammed Al Suwaidi	✓	*
Dr. Fareed AlMaftah (Shari'a Supervisory member)	✓	✓

* Mr. Tariq Abdulhafidh AlAujaili became a member of the committee instead of Mr. Alhur Mohammed Al Suwaidi as per the new Board Committee's composition dated 26 April 2021

Corporate Governance Report (continued)

FATWA & SHARI'A SUPERVISORY BOARD

The Bank is guided by a Shari'a Supervisory Board consisting of five distinguished scholars. The Shari'a Supervisory Board reviews the Bank's activities to ensure that all products and investment transactions comply fully with the rules and principles of Islamic Shari'a. Further, the Shari'a Supervisory Board shall review and vet the screening criteria for charitable donations/sponsorships as well as the sponsorship contracts.

The Shari'a Supervisory Board shall also ensure that an internal Shari'a audit function is in place and is adequately performing their duties as stipulated in the Shari'a Governance Module and AAOIFI Standards.

In addition, one designated member from the Shari'a Supervisory Board shall form part of the Nomination and Corporate Governance Committee to ensure that the corporate governance related matters are in compliance with the Islamic Shari'a rules and guidelines.

The Board meets at least 4 times a year. Its members are remunerated by annual retainer fee and sitting fees per meeting attended, with travel expenses reimbursed as appropriate. Its members are not paid any performance-related remuneration.

Performance assessment of the Shari'a Supervisory Board is done on a self-assessment basis and submitted to the Board for their review and action.

Total	135,054	128,624

Management Committees

The Group Chief Executive Officer ("Group CEO") is supported by a number of management committees each having a specific mandate to give focus to areas of business, risk and strategy. The various committees and their roles and responsibilities are:

Committee	Roles and Responsibilities
Management Executive Committee	Overseeing the other Management committees and assisting the Group CEO in various issues or topics as and when required.
Credit/Risk Committee	Recommending the risk policy and framework to the Board. Its primary role is the selection and implementation of risk management systems, portfolio monitoring, stress testing, risk reporting to Board, Board Committees, Regulators and Executive Management. In addition to these responsibilities, individual credit transaction approval and monitoring is an integral part of the responsibilities.
Asset Liability Committee	This Committee's primary responsibility is to review the trading and liquidity policy for the overall management of the balance sheet and its associated risks.
Investment Committee	The role of the Committee is to review and approve all transactions related to corporate and real estate investments and monitoring their performance on an ongoing basis. In addition, the Committee is responsible to oversee the performance of the fund managers and recommend exit strategies to maximize return to its investors.
Technology Steering Committee	The Committee oversees the information technology function of the Bank. It recommends the annual IT budget and plans, drawn up in accordance with the approved strategy of the Bank, to the Group CEO for submission to the Board of Directors for their approval. It supervises the implementation of the approved IT annual plan within set deadlines and budgetary allocations.
Remedial Committee	The role of the committee is to assess and follow up on all non-performing assets of the Bank with the objective of maximizing recoveries for the Bank.
Human Resources Committee	The role of the committee is to enable the Bank's employees to meet their professional and personal goals aligned with the growth of the Bank by focusing on skill enhancement, career development, rewards with performance, and work life balance.

Corporate Governance Report (continued)

Information Security Committee	The role of the committee is advisory in nature. It assists the relevant stakeholders to develop, review and execute a comprehensive Information Security Management System (ISMS) for the Bank. The role of the Committee is to strengthen the Information Security Department's capabilities as well.
Social Responsibility Committee	<p>This Committee oversees the Corporate Social Responsibility affairs of the Bank, managing donations and sponsorship requests, evaluating the proposals and allocating funds to causes that the Bank is committed to support, in line with the annual corporate social responsibility plan and the Corporate Social Responsibility Policy. Any exceptions to the approved plan are reviewed and recommended to the Board for approval. The Committee is also involved in the preparation of the Corporate Social Responsibility Report, which forms part of the Annual Report, detailing the donations and sponsorships made during the year.</p> <p>The social causes that are supported by the Bank are:</p> <ul style="list-style-type: none"> • Medical assistance; • Care for the less fortunate; and • Cultural initiatives focused on preserving and promoting Bahraini traditions into the future.

Executive Management Compensation

The performance bonus of the Group Chief Executive Officer is recommended by the Remuneration and Nomination Committee and approved by the Board. The performance bonus of senior management is recommended by the Group Chief Executive Officer for review and endorsement by the Remuneration Committee subject to Board approval. The Performance Audit for the Compliance, Audit and Risk functions are assessed and approved by both the Audit and Risk Committee and the Remuneration Committee. The Remuneration policy was amended to include the following changes for the Year 2022 (Subject to shareholders and regulatory approvals):

Item	Changes

COMPLIANCE

The Bank has in place comprehensive policies and procedures to ensure full compliance with the relevant rules and regulations of the respective regulators.

Due diligence is performed to ensure that the financial activities of the Bank's customers are performed in accordance with the guidelines issued by the regulatory authorities.

The Bank continuously endeavors to enhance its Compliance and Anti Money Laundering systems. The Bank, as part of its enhancement efforts, has recently started implementing the national E-KYC initiative which was launched nationwide as part of the Kingdom of Bahrain's digitization initiatives related to the Banking Sector.

The Bank adheres to the Financial Crimes Module of Central Bank of Bahrain's Rulebook. The module contains Bahrain's current anti-money laundering legislation, developed under the directives of the Financial Action Task Force, which is the international organization responsible for developing global anti-money laundering policies. The Bank complied with Foreign Account Tax Compliance Act (FATCA) and Common Reporting Standards (CRS) requirements as mandated by the Central Bank of Bahrain (CBB).

Corporate Governance Report (continued)

REMUNERATION AND APPOINTMENT OF THE EXTERNAL AUDITORS

During the Annual General Meeting held on 17 March 2021, the shareholders approved the re-appointment of KPMG as external auditors for the year ending 31 December 2021 and authorized the Board of Directors to determine their remuneration. The Bank has appointed the auditor for several non-audit services which were cleared as per the Bank's internal policies and procedures. The Board has approved the fees related to those services on cases by case basis.

INTERNAL CONTROL

Internal control is an active process that is continually operating at all levels within the Bank. The Bank has established an appropriate culture to facilitate an effective internal control process. Every employee of the Bank participates in the internal control process and contributes effectively by identifying risks at an earlier stage and implementing mitigating controls at optimum cost. Residual risk is properly communicated to the senior management and corrective actions are taken.

KEY PERSONS POLICY

The Bank has established a Key Persons' Policy to ensure that Key Persons are aware of the legal and administrative requirements regarding holding and trading of the Bank's shares, with the primary objective of preventing abuse of inside information. Key Persons include the Directors, Executive Management, designated employees and any person or firm connected to the identified Key Persons. The ownership of the Key Persons' Policy is entrusted to the Board's Audit Committee. The latest Key Persons' Policy is posted on the Bank's website and is updated every board term.

EMPLOYEE RELATIONS

Al Salam Bank is committed to promoting a diverse and inclusive environment and encourages understanding of the individuality and creativity that each employee uniquely brings to the Bank. Employees are hired and placed on the basis of ability and merit. Evaluation of employees is maintained on a fair and consistent basis.

In line with the Bank's policy of being an equal opportunity firm and as part of Central Bank of Bahrain's Rulebook and Corporate Governance requirements, the Bank shall not employ relatives of employees up to the 4th degree. Existing employees must alert the Human Resources of any relatives or relationship of other employees or candidates being interviewed. Failure to do so will subject the employee to disciplinary action pursuant to the Law No. 36 of 2012 Promulgation of the Labour Law in the Private Sector and the Bank's Disciplinary Guidelines.

COMMUNICATION POLICY

The Bank recognizes that active communication with different stakeholders and the general public is an integral part of good business and administration. In order to reach its overall communication goals, the Bank follows a set of guiding principles such as efficiency, transparency, clarity and cultural awareness.

The Bank uses modern communication technologies in a timely manner to convey messages to its target groups and shareholders. The Bank shall reply without unnecessary delay, to information requests by the media and the public. The Bank strives in its communication to be as transparent and open as possible while taking into account Bank confidentiality. This contributes to maintaining a high level of accountability. The Bank also proactively develops contacts with its target groups and identifies topics of possible mutual interest. The Bank reinforces clarity by adhering to a well-defined visual identity in its external communications. The Bank's formal communication material is provided in both Arabic and English languages.

The annual reports and quarterly financial statements and Corporate Governance reports are published on the Bank's website. Shareholders have easy access to various types of forms including proxies used for the Annual General Meeting. In addition, forms are also available online to file complaints or make inquiries which are duly dealt with. The Bank regularly communicates with its staff through internal communications to provide updates of the Bank's various activities.

WHISTLE BLOWING POLICY

This Policy details the procedures for a whistleblower to escalate a complaint to the designated authority and procedures that are to be followed by the Audit and Risk Committee to ensure that a valid whistleblowing complaint is investigated properly and action taken appropriately, while protecting the whistleblower from any adverse reaction due to their complaint.

DELEGATION OF AUTHORITY LIMITS

Approving limits for the Board, Board Committees and other designated individuals are incorporated into the Delegation of Authority Limits. The authorities are established for both financial and operational activities.

DISCLOSURES

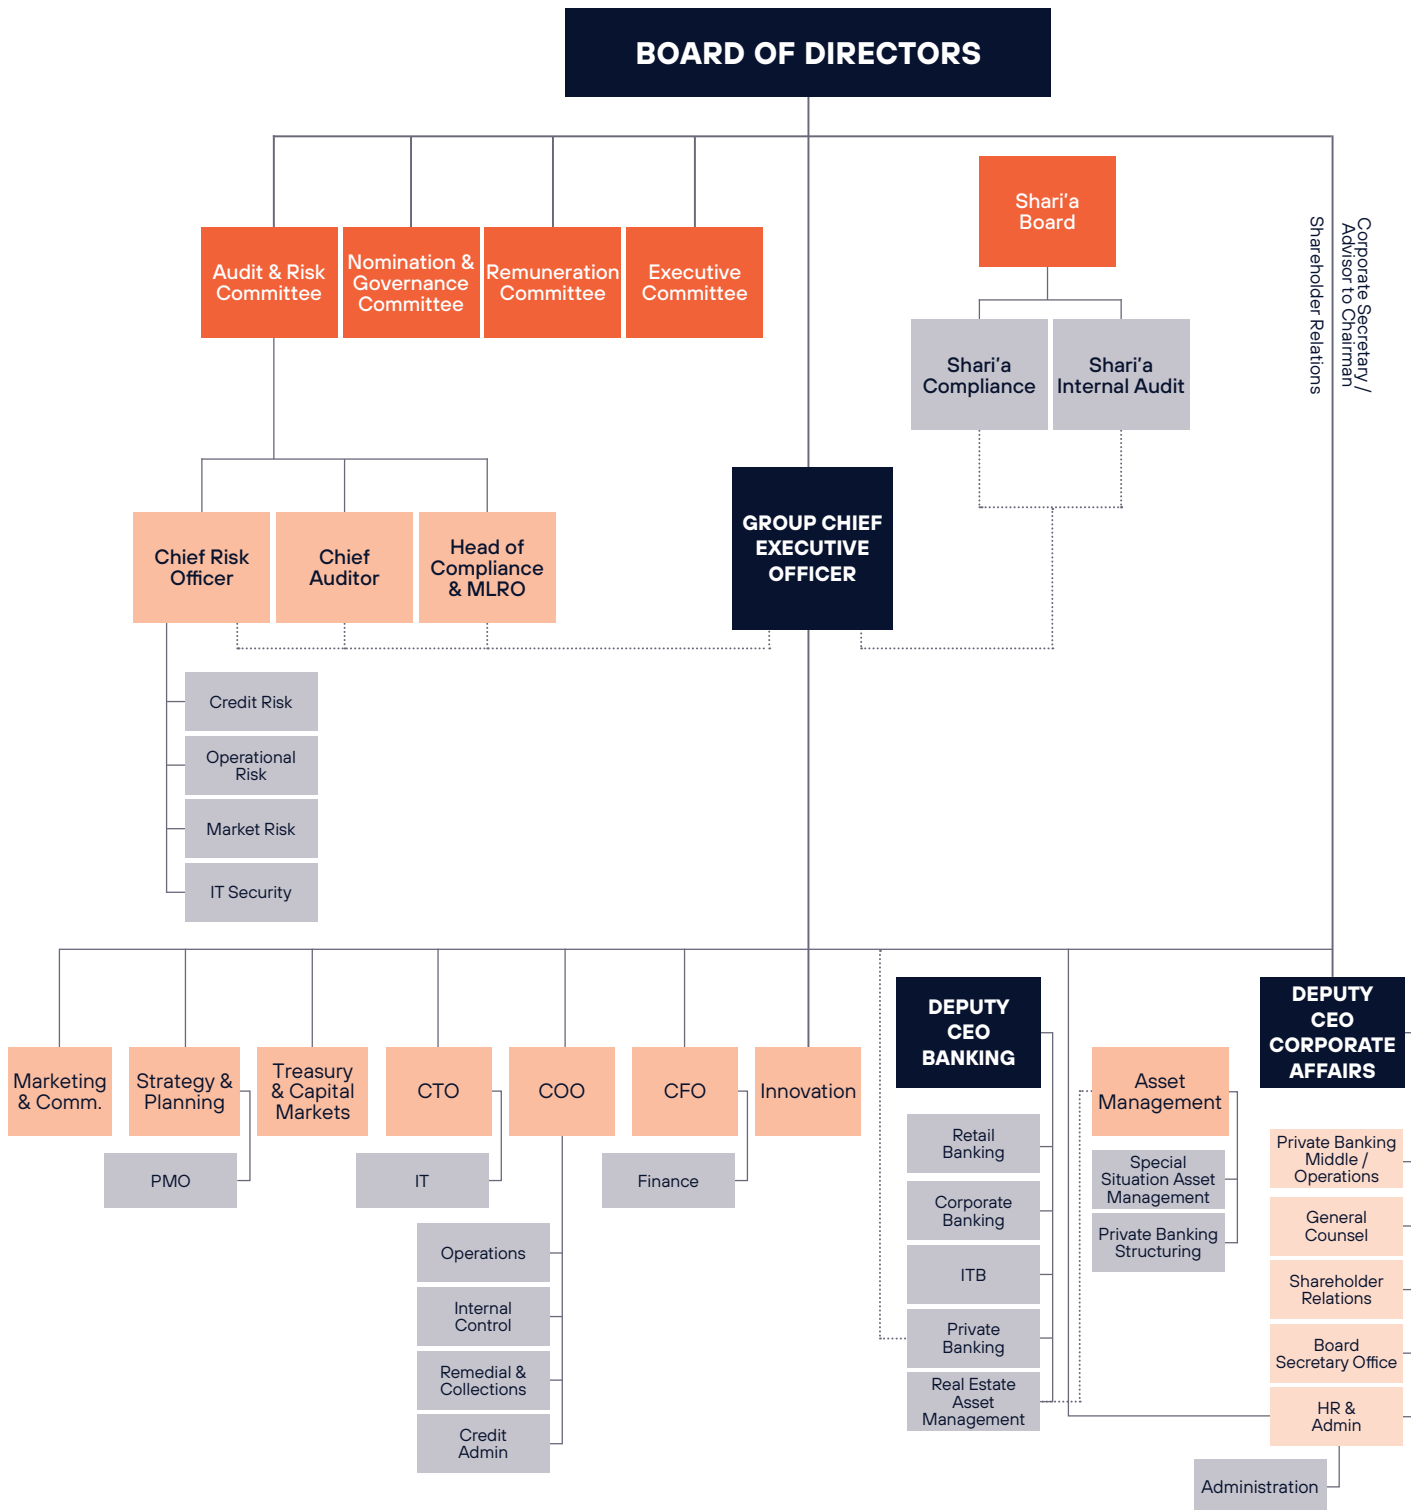

The Bank has a Disclosures Policy in place detailing the Bank's internal as well as external communications and disclosures. The Board oversees the process of disclosure and communication with the internal and external stakeholders.

HC comply or Explain:

Sr	Rule	Recommendation
1	HC-1.4.6 – The chairman of the Board should be an independent director, so that there will be an appropriate balance of power and greater capacity of the Board for independent decision making.	The Board structure is approved by CBB. Since this is a guidance, the Bank needs to disclose this fact in the annual report only.
2	HC-5.3.2 (Remuneration Committee) - The committee should include only independent directors or, alternatively, only non-executive directors of whom a majority are independent directors and the chairman is an independent director. This is consistent with international best practice and it recognizes that the remuneration committee must exercise judgment free from personal career conflicts of interest.	The Chairman is Non-Executive Director. This is approved by CBB, moreover, the Bank is required to disclose such information in the Annual Report.
3	HC-6.6.15 and HC-3.2.1 (Board Audit and Risk Committee) - The risk/ audit committee must be chaired by an independent director.	The Chairman is Non-Executive Director. The same was approved by CBB, moreover, the Bank is required to disclose such information in the Annual Report.
4	HC-7.2.2 The Bahraini Islamic bank licensee should require all directors to attend and be available to answer questions from shareholders at any shareholder meeting and, in particular, ensure that the chairs of the audit, remuneration and nominating committees are ready to answer appropriate questions regarding matters within their committee's responsibility (it being understood that confidential and proprietary business information may be kept confidential).	Only members who were able to attend have attended (this was due to Covid 19).

Corporate Governance Report (continued)
